TWO GIVEN PARK AWARDS

Dr. Harry W. Pfanz, local National Park historian, has been presented with a National Park superior performance award of \$300.

Park Superintendent Kittredge, in making the presentation Monday at the Visitor Center said the award was for Dr. Pfanz's work in organizing and directing the operation and programming of the Visitor Center here, "the largest, most elaborate and most expensive center in the National Park system."

While Dr. Pfanz's award was based on "effective planning and supervision" in connection with the "smooth function" of the Visitor Center and walking tour, the local historian was particularly cited for "superior work" in connection with the script for portraying battle action in the Cyclorama.

At the same time a National Park award of \$150 was made to Clyde Hippensteel, head electrician. The award was for developing a "pointer" or spotlight used in connection with the showing of the Cyclorama painting at the center. Because of the power of the lights which illuminate the huge painting the normal type electric pointer used to "spot" points of interest on paintings or pictures could not be used. Hippensteel developed an amplification of a projecting machine to provide a spot of light that can be moved to any portion of the painting while it is illuminated to show location of particular scenes.

OPTIMISTS TO SPONSOR BOYS' BASEBALL LOOP

The Optimist Club voted to sponsor a baseball league for nine to 12-year-old boys as part of the town's summer recreation program at a meeting of the Optimists Wednesday evening at the Battleground Restaurant.

The action followed a talk by Ray Thompson, recreation director, in which he told of the large number of youths nine to 12 wishing to play baseball and his hopes to establish a Tot Lot League for the youngsters six to eight using smaller than normal equipment.

The last several years the Optimists have sponsored a recreation league for boys in the six to eight age. Thompson said that there is more need for organized baseball for the nine to 12 group and asked that the Optimists switch to sponsorship of a league in that age group rather than the younger group.

The club will furnish T-shirts, caps, bats and balls for the nine to 12-year-old league.

Edward Carbaugh, chairman of the bicycle road-o committee, reported that the Black Walnut District Boy Scouts will assist the club in sponsoring the competition May 4. He described plans for the course over which cyclists in different age groups will compete for awards, based upon driving skills.

President Ned Crouse presided at the meeting. Clyde Williams introduced Ray Wetzel as a guest.

His daring escape was the talk of West Berlin today.

The Dallastown R. 1 officer said he brought the charge after he went to Weigandt's home and was told to leave the premises unless he had a search warrant when McDowell asked to see the licenses of four dogs owned by Weigandt. McDowell said Weigandt had a pistol in his hand when the dog law enforcement officer arrived and told McDowell that he did not need to show the dogs. McDowell claimed Weigandt told him, "Out there's your car and there's the gate."

The dog law enforcement officer also reported that Richard Cochran, Gettysburg R. 5, paid a fine of \$16 and costs to Justice Straley on a charge of having an unlicensed dog.

Because the cost will be less than \$1,000 it will not be necessary to ask bids for the contract, the commissioners said. Work is scheduled to start Monday on the project.

Deciding to continue filing, grading and planting of grass on the county home land in the area where the Cumberland Twp. election house formerly stood, the commissioners directed that the contractor for the county home construction be contacted to determine whether he has any further work to do in connection with the grading and seeding of the lawn around the county home.

Keating, a New York Republican, said in a speech prepared for the American Society of Newspaper Editors that he has information that new Soviet arrivals have about matched the departures.

BOARD VOTES PADDLING OF STUDENTS BAN

WASHINGTON (AP)—The ban on paddling of students stays in force in District of Columbia schools under a 5-4 vote taken by the school board after heated debate on a corporal punishment proposal by Supt. Carl F. Hanson.

The board in a long session Wednesday did, however, go along with Hanson's disciplinary suggestions to the extent of voting for indefinite suspension of unruly pupils. But that has to lie over until the May meeting, awaiting a ruling on how it squares with the capital's laws.

Much of the heat in the discussion was generated by Mordcaid Johnson, former president of Howard University and a board member.

CITES RECENT RIOT

Johnson, in a 30-minute speech, accused Hanson of being "out of touch" with disciplinary problems before the Thanksgiving Day football game riot that precipitated the discipline issue.

The melee in D.C. Stadium broke out after a championship game between one school attended preponderantly by Negroes and another made up mostly of whites.

A citizens committee investigating that incident and others came up with a report critical of school discipline. Hanson, in response, offered a 22-point program including permission to paddle the unruly and to turn the obstreperous out of school.

Johnson, shaking his fist, accused Hanson of making too hasty a judgment on the background causes of trouble and trying to cover up "administrative failure" by a "movement to violence—whipping our children."

The board unanimously adopted a resolution expressing confidence in Hanson.

FACES SECOND ARSON CHARGE

PITTSBURGH (AP)—Frank D. Palermo Jr., who is free on \$50,000 bond in connection with a fire at the Youngstown, Ohio, club was in Allegheny County Jail today in default of a \$5,000 bond in a Michigan case.

Palermo, son of one-time boxing manager Frank (Blinky) Palermo, earlier had been charged with arson. He was arrested April 10 in Erie and lodged in Mercer County Jail.

At Wednesday's hearing in Grove City, U.S. Commissioner David W. Kettler released Palermo on a \$50,000 recognizance bond pending continuation of the Ohio fugitive charge hearing.

However, Palermo was immediately held on the Michigan fugitive charge and was escorted to Pittsburgh by U.S. marshals, Kettler said.

Kettler said the hearing was continued at the request of the U.S. Attorney's office in Cleveland where officials said they wanted to produce two persons as witnesses.

PLUCKY LITTLE AIR HOSTESS FIGHTS UNION

NEW YORK (AP)—"So at 33 do I look like an old bag?" Asking the question Wednesday was an American Airlines stewardess, Dusty Roads, 5 feet 8, shapely—36-24-36—weighing 125 pounds, and a natural blonde.

The stewardesses at American are fighting the clause in the union contract which stipulates that the girls must resign at age 32. Miss Roads is exempt because the age embargo went into effect Dec. 1, 1953—and Dusty was flying for American before that.

The union's contract expired last June and negotiations have failed to bring agreement on a new pact. The age clause is a key issue.

10 ARE 32

A company spokesman said 10 of the airline's 1,500 stewardesses are approaching the 32-mark this year.

Nancy Collins, master executive chairman of the American Airlines unit of the Airlines Stewardesses Association, said that the girls said they have slogan for their fight: "Too old to fly—too young for Social Security."

The American spokesman said that being a stewardess is a younger girl's type of job.

In many nations community television sets are installed in public places.

Senator

Navy ships have specific orders not to searchlight the small vessels which he said constantly ply Cuban and Caribbean waters at night. He mentioned "Navy personnel" as his source of this information.

SHIPS NOT SEARCHED

Despite U.S. surveillance designed to block the shipment from Cuba of "weapons, personnel and other tools of subversion" to other Latin-American countries, Keating told the editors:

"None of these ships are ever searched by U.S. patrols. 'How can we hope to get evidence of support of subversion,' he went on, 'if we don't investigate these small scale but very numerous operations?'"

"I have never been impressed by the view that we are going to gain any concessions by relaxing pressure on the Soviets."

Keating was the first major speaker before the 450 editors who, later in the afternoon, were to hear from the administration's first team in foreign policy—Secretary of State Dean Rusk and Undersecretaries George W. Ball and W. Averell Harriman.

CUBAN EXILE TALKS TONIGHT

MIAMI, Fla. (AP)—The embattled head of the Cuban Revolutionary Council is expected to make public tonight a document the United States with bad faith. Dr. Jose Miro Cardona may or may not be council president when he reveals his 20-page statement—in the form of a letter of resignation over lack of action against Fidel Castro. Its release is expected at a meeting of the council whose members refused last week to let Miro quit.

Miro has been at loggerheads with the administration since a Washington conference in which he is said to have demanded action against Castro or money to equip a Cuban exile invasion army.

He said the State Department asked him to withhold his letter from publication so that differences between the government and the council could be resolved. But, said Miro, the State Department also heaped abuse on him. "As a result, I feel free to make public the document," he said.

BEEF TAKES SPOTLIGHT ON MARKET

By THE ASSOCIATED PRESS

Beef moves back into the spotlight at supermarkets this week-end.

A nationwide chain offers ribs of beef at 55 cents a pound in its New York area outlets, boneless chuck roasts at 59 cents and sirloin at 79 cents.

These prices and others over the nation, reflect pressure exerted by the spring marketings of a record total of fed cattle.

Pork prices are also low, for much the same reason. Featured regionally are loin roasts and chops and a variety of cured meats, including hams and smoked butts.

Poultry supplies are ample, with fryers, roasting hens and turkeys most widely featured.

Egg prices are still low. Produce counters continue to reflect the advance of the season, with several fresh spring attractions showing up.

These include asparagus, artichokes and iceberg lettuce in the Northeast, English peas and turnip greens in the Southeast, green onions and peppers in the Midwest, yellow squash and Brussels sprouts in the Southwest and rhubarb and cauliflower on the West Coast.

Fruit features include apples, bananas, grapefruit and strawberries.

Says Republicans Can Carry South

NEW YORK (AP)—Any GOP presidential candidate with a "constructive program" could "carry the South," says Republican Gov. Nelson A. Rockefeller.

Rockefeller, mentioned widely as a potential 1964 presidential candidate, said Wednesday the South "is going to surprise a lot of people" and Sen. Barry Goldwater, R-Ariz., or any other Republican candidate might well carry it. He did not mention himself as a possibility.

TWENTY YEARS AGO

Snow Flurries At 30 Degrees:
Snow flurries were reported in various sections of the county Tuesday night and this morning while an official minimum of 30 degrees was recorded at the Ar. endsville laboratory this morning.

Staff members there said it was unlikely that any damage has resulted from temperatures in the current cold snap but added that some damage to peach buds was caused by temperatures in the low twenties about 10 days ago.

C. M. Wolf Sells Two Buffalos:
Once the great herds of bison roamed the western prairies but in these rationed days — it's Gettysburg that serves Baltimore its buffalo meat.

Stockyard attendants in Baltimore Thursday were startled when Robert McNair, of Emmitsburg drove into the yards there with two buffalos, the first, it is believed, ever to be sold at Baltimore. A packing firm bought the two animals for consumption, government permitting, by the elite of the city in one of its better restaurants.

The buffalos were from the farm of C. M. Wolf, along the Harrisburg road, where Mr. Wolf still has two buffalos grazing. Five buffalos have been purchased so far by Mr. Wolf, two of them from circuses that folded with the war, one from the Allentown stockyards and the other two, a pair of calves, from the Hershey zoo.

Only the two from Hershey remain, growing into vigorous buffalohood on the pastures at the Wolf farm. The first buffalo purchased from a circus was sold when it became too wild to remain at the farm. Of the pair sold Thursday, one had also become a little wild through confinement to only a few acres. Each of them weighed 850 pounds.

Local Soldier Returns From African Duty: Night bombing raids by enemy planes in Africa are very damaging to one's shins, Private Charles G. "Les" Gallagher has decided.

The Gettysburg youth, who spent the weekend with his parents, Mr. and Mrs. W. H. Gallagher, Hanover street, found that out one night in a city in North Africa, when enemy bombers started to drop their loads in his vicinity. He knew there was an underground bomb shelter with a steel and concrete top a short distance away. He headed in the blackness for the shelter and fell over a steel coupling uniting two flat-bottomed trucks used to transport materials. He said today he still has marks to show for the accident.

He saw some bombing, the worst one when he hurt his shins, and some sniping while in Africa. His outfit arrived five days after the first wave of troops went into Africa and German sympathizers were still shooting from houses at American troops. He was driving officers through a town when a sniper started shooting at men about 100 yards from them.

He says he saw the men "get" the sniper before he did much damage. Among the officers he saw in Africa was General Eisenhower, whom he describes as a "very good looking and very military looking man." American troops in Africa, Private Gallagher said, consider Eisenhower the greatest general of all time.

During his tour of duty in Africa, Gallagher met two Gettysburg soldiers, Major Stewart Moyer and Joseph Eden.

Brothers Hold Same Rank And At Same Port: If any Adams county inductees are sent to the Brooklyn Port of Embarkation tell them to ask for Major Gillespie, who graduated from Gettysburg college and is related to the Appier family, at Gettysburg. But tell them to be careful.

Today's Talk

THE JOY OF EARNING

We are only owners of those things which the toil of our hands or our brains have entered into. We may indeed possess — but possession is not necessarily ownership.

The things that mean the most to anyone are those things which have come through sweat, hard work, worry maybe, backaches, and sacrifice.

But there is a divine cast to the process of earning!

Earned things are appreciated. And when they are given away, the earner gains greatly increased happiness over that which gave him his gain in the first place.

I always have liked the big, rough hands of the farmer. They mean that he takes pride in what he is able to do.

To earn, you must think, read, observe, work.

What thrills one gets from taking home a book that he or she has earned, or from giving some appropriate thing to a friend whose tastes are akin.

There is a sense of security about having something earned.

Your home or car, or business, the position which you hold, or the well-known name you bear — to have something very close to you all the time that you have earned is to keep your power vibrant.

The boy who earns his way through college has something on the one whose way is paid for him.

Earn what you get — or don't take it!

Every day get new joy out of earning. And try to distribute this joy by stimulating other people to honestly earn.

Never mind the long hours, the tired body, the car-loads of discouragements. Big events happen for those who take pride in earning every bit of the way!

they are just likely to get Major Gillespie, who graduated from Gettysburg college and is related to the Appier family, only through his brother's marriage.

The confusion arising at Brooklyn has been brought about by J. Armand Gillespie, who is a major in the Army Transport Service at the Brooklyn port of embarkation, and his brother, Frederick Gillespie, who is a major in the personnel office at the same place.

Both went to Gettysburg college, J. Armand graduating in 1934 and Frederick in 1939. Both are graduates of the ROTC here and both have been promoted from second lieutenant to major since entering the service in January, 1942. Both are from Kearney, New Jersey, and both have received a copy of a resolution passed by the Kearney town council commending them on being two of the youngest majors in the Army.

Major J. Armand Gillespie married the former Miss Jessie Appier, of Gettysburg, five years ago.

BRAVES TAKE
TOP SPOT BY
EDGING PHILS;
METS LOSE 8THBy MIKE RATHET
Associated Press Sports Writer

For tough luck with an unusual twist, you'd have to go far to beat life with the hitless wonders as experienced by Bob Miller, the persistent right-hander kissed by Lady Luck, then smacked in the kisser by Dame Fortune.

Miller, who last year struggled through 12 consecutive defeats with the New York Mets before winning on the next-to-last day of the season, got the big smile from the Lady when he was traded to Los Angeles' National League pennant contenders.

Then the Dame shoved the Lady out of the picture.

Miller pitched 7 2-3 innings of scoreless ball against Houston in his first start and left with no score in the game. Wednesday night he made his second start and allowed only three hits as Los Angeles edged the Chicago Cubs 1-0 in 10 innings.

Miller left for a pinch hitter in the ninth inning.

The unusual also happened at San Francisco, where Colts engineered a triple steal for one run, then beat the Giants 2-1 in the 13th inning when catcher Jim Campbell hit a homer.

BRVES ON TOP

Milwaukee moved into first place with its sixth straight victory, 6-5 over Philadelphia. Cincinnati handed the winless New York Mets their eighth setback, 5-0 behind Jim O'Toole's five-hit pitching and St. Louis whipped Pittsburgh 7-3.

The Dodgers got to Dick Ellisworth for the game's lone run in the 10th on singles by Lee Walls, Frank Howard and Bill Skowron. Ellisworth, 2-0 had pitched 18 2-3 scoreless innings before Skowron drove in his first NL run.

The victory went to Ron Perranoski, working in relief of Miller.

The Colts pushed across their first run against Billy O'Dell when the Giants' starter went to a full windup with the bases loaded in the second inning. Howie Goss slid home ahead of Tom Haller's tag. Willie McCovey's ninth inning homer off Ken Johnson tied it before Campbell hit the game-winning off Don Larsen in the 13th.

3 PHILLY HOMERS

The Braves used three Phillies' errors for three runs and held on as former teammate Wes Covington hit a solo homer and Don Demeter blasted a pair, each with one man on. Demeter's second homer brought on Claude Raymond, who preserved Lew Burdette's second victory without a loss. Paul Brown was the loser.

O'Toole got all the working room he needed when Johnny Edwards hit a grand slam homer off Mets starter Carl Willey in the first inning.

The Cardinals jolted loser Don Cardwell for four runs in the second inning on consecutive homers by Stan Musial and Carl Sawatsky plus Curt Flood's single. Ray Washburn brought his record to 2-0 with a six-hitter.

Stolen Easter

NASHVILLE, Tenn. (AP)—At 3:30 a.m. the phone rang in the rectory of St. Henry's Catholic Church.

"Is this the father?" a voice asked.

"Yes," said the Rt. Rev. Joseph A. Seiner.

"If you will look on the front seat of your car you will find the collection money we stole Sunday."

With the package of money Msgr. Seiner found a letter that said:

"We are returning this money from the robbery on Easter morning. Our need for a clear conscience is greater than our need for the money. We beg the Church's forgiveness for this great injustice toward God. We also ask the forgiveness of Michael Ignat for the blow he received during the robbery, and that by no means was this directed toward him personally."

USHER SLUGGED

Ignat elderly chief usher at St. Henry's, was struck on the head with a piece of lumber and the scalp wound required 12 stitches.

"The bag he was carrying contained \$180 in cash and \$149 in checks," the letter said. "The checks have been destroyed."

"Some of this was spent before we reached the decision to return it. Therefore, we can only return \$121 at this time. The rest of it we will pay back as soon as we can."

"Father, if we are forgiven, please put it in the paper that the money was returned and that our appeal for forgiveness has been accepted. If this attempt to undo the crime that we have committed has failed, would you please let us know through the Nashville Tennessean."

The priest asked the newspaper to print in today's editions these words from the Bible: "I will not delight in the death of a sinner, but that he be converted and saved."

Msgr. Seiner said he will turn the letter over to police, but with a request that the investigation be dropped. He said he does not wish to press charges if the offenders are found.

Gov. Scranton says constitutional revision is the only way to keep state government from faltering in what he calls the crucial years ahead. He made the strong pitch for revision at a meeting of the Southeastern Pennsylvania League of Women Voters in Philadelphia.

A \$17.7 million shortage of funds for the state's school subsidy, welfare and occupational disease programs brought the House back for a solo session today. While the Senate was in recess until Monday, the House called a special meeting to advance bills providing emergency money for the three programs.

A key House member, who had remarked earlier that Gov. Scranton's proposed \$1.12 billion budget would be hard to cut, said today he wanted more time to study the \$550 million spending requests for education before repeating his assertion. Rep. Blaine C. Hocker, chairman of the Appropriations Committee, was noncommittal on the budget after hearing the appropriations outlined for the Department of Public Instruction.

PHILS GAME

MILWAUKEE (AP)—The Philadelphia Phillies headed back to Milwaukee County Stadium today, trying to salvage at least one victory in their present series with the Braves here.

The Phillies lost the first two games, taking it on the chin 6-5 Wednesday night despite three home runs, two of them by Don Demeter.

Three errors proved to be the Phillies' undoing. Two of them were by Demeter at first base. Catcher Clay Dalrymple made the other.

Demeter homered off starter and winner Lew Burdette and Denny Lemaster. Wes Covington, who got the Phils other home run, hit it off Burdette, too. Paul Brown was the loser.

The circus will be for the benefit of the orphans and underprivileged children and Shrine activities fund.

Smith moved into the "Laramie" role after successfully handling the costarring role in NBC-TV's former series "Cimarron City."

A direct descendant of Peter Stuyvesant and a native Californian he was born in Los Angeles on March 6, the son of Errol and Margaret Van Orden. His real name is Robert Van Orden.

He attended public school and graduated from Dorsey High School in Los Angeles, then enrolled at UCLA.

He intended to become an engineer. "But after one year, I decided to follow my first love, acting," he explains.

He was immediately hired by MGM as a mailboy. He soon advanced to head of the mail departments, however. Once when his route led through the casting department, a director noticed him and cast him in "Carbine Williams." Then he started taking drama lessons with the studio acting coach.

The job didn't last and a hungry period followed. He got jobs selling used cars and deep freezes. One day he dropped into see the director who gave him his first role and met Henry Willson, a prominent agent.

The Hershey Bears ended their jinx on Cleveland ice just in time in the American Hockey playoffs for the Calder Cup.

The Pennsylvanians who have not won in Cleveland for a long time beat the Barons 5-3 in the Ohio city Wednesday night. The victory ended their best-of-5 semi-final series at 2-2.

Thus the Bears on the edge of elimination, get a chance to win the series in the deciding game tonight at Hershey. The winner will play the Buffalo Bisons in the best-of-7 final.

Cleveland took a 2-0 lead, but Hershey tied it early in the second period and went ahead for good on Pete Conacher's goal at 17 minutes, 43 seconds of the same period.

WASHINGTON (AP) — In the news from Washington:

Post Office: Postmaster General J. Edward Day has hinted parcel post service may be shut down July 1 and Saturday mail deliveries suspended.

What may lead to an end of parcel post, Day told a Senate Appropriations subcommittee Wednesday, is "an impossible hodgepodge of legislation" that he said would require radical increases in the rates for handling packages.

Day tied the chance for suspension of Saturday service—and possible denial of service to new homes and businesses—to the \$92 million cut by the House from the \$6 billion Post Office-Treasury appropriation bill.

Senate subcommittee Chairman A. Willis Robertson didn't give Day cause for much cheer. Only about one-fourth of what the House cuts is eventually restored before Congress completes its work on the budget, the Virginia Democrat told the postmaster general.

The parcel post situation stems from a provision requiring the department to set parcel post rates so that revenues for this service are within 4 per cent of costs.

The department loses money on parcel post—it accounts for \$127 million of the \$231 million deficit expected in the year ahead—and if the provision is followed, Day said, over-all rates would have to go up at least 25 per cent and the rats on smaller packages about 40 per cent.

Appealing for a Senate rider to cancel the 4 per cent formula for a year, Day described the provision as self-defeating. His reasoning: The increase in rates will drive away business, throwing parcel post deeper in the red.

OVERSEAS TOURS: Secretary of Defense Robert S. McNamara has given the military services greater leeway in setting overseas tours.

Men who leave their families at home may have their overseas tours cut to a year. They now are sent abroad for as long as two years. And men who take their families with them may be asked to serve abroad for four years instead of the present three.

A Pentagon spokesman said the objective is to cut down on the gold-dollar drain abroad, to save money in transporting families and their goods and to improve morale.

POPULATION CONTROL: The National Academy of Sciences has called for an international effort to cope with "uncontrolled population growth."

In a report Wednesday the private organization of scientists and engineers declared:

"In our judgment, this problem can be successfully attacked by developing new methods of fertility regulation and implementing programs of voluntary family planning widely and rapidly throughout the world."

"Other than the search for lasting peace, no problem is more urgent," the academy said.

Based on the present rate of population increase, the academy forecast there would be 6 billion people in the world by the year 2070. The present world population is in excess of 3 billion.

An average of 83,000 servicemen at U.S. military installations and hospitals in this country and overseas were served each month last year by American Red Cross volunteers and staff.

10 APPROVALS BY PIDA MEAN 1,824 NEW JOBS

HARRISBURG (AP) — An estimated 1,824 new jobs would be created by projects receiving tentative approval for loans Wednesday by the Pennsylvania Industrial Development Authority.

Among the 10 projects receiving tentative approval was one in which a Japanese firm seeks to become the first to locate a plant in the United States, an authority spokesman said.

The PIDA board gave final approval to eight loan applications announced earlier.

3 NEW PLANTS

The total amount of loans given tentative approval was \$1,076,600. The 10 projects consisted of three new plant locations and the expansion of seven existing industries.

John K. Tabor, secretary of commerce and chairman of the PIDA board, hailed the Japanese plant, which will be located in Hazleton, as "hopefully, a forerunner of additional investments by foreign companies in our state."

The firm, Sekiskui Plastics Corp., manufactures styrene paper and expects to employ 102 people during its first year of operation.

TENTATIVE OKAYS

The loan applications that were given tentative approval by the board included:

Sunbury — An application by Sunbury New Enterprises Expansion Drive, Inc., for a loan of \$80,000 for a planned building to house an increased operation which is expected to double itself within the next year; 25 jobs will be created. An application for \$23,500 for another project—an expansion which will create 60 additional jobs.

Lock Haven—An application by the Industrial Development Fund of Clinton County, Inc., for loans of \$52,000 and \$10,600 which will be used by General Armature & Manufacturing Co., to acquire

After 25 unsuccessful campaigns for public office Barnet F. Cobb has at least made a runoff in his 26th attempt.

He ran second among six candidates for the Jacksonville, Fla., City Council 3 in Tuesday's Democratic primary.

Lauritz Melchior, who celebrated the 50th anniversary of his opera debut April 2 in his native Copenhagen, Denmark, received a birthday cake when he arrived Tuesday at Idlewild Airport in New York from Chicago.

The cake was a gift to the 73-year-old tenor from Adelphi College at Garden City, N.Y., where he will be soloist Thursday night with Leopold Stokowski and the American Symphony Orchestra.

PLAN TO PUNISH RACISTS FIRES WHITE VOTERS

By JACK BELL

WASHINGTON (AP) — A proposal to punish Mississippi segregationists by denying federal funds to the state has touched off a new flareup in Congress over civil rights.

President Kennedy maintained silence on a recommendation by the Civil Rights Commission that he look into his legal authority to cut off funds to counter what the group said was "open and flagrant violation of constitutional guarantees" of Negro citizens seeking to vote in Mississippi.

JFK SILENT

There was no indication the President planned any action toward carrying out such a proposal which would be hailed by minority voters in the large industrial states but would be certain to stir resentment among white voters in the South.

Nevertheless Southern senators erupted with bitter condemnation of the suggestion while civil rights advocates of both parties praised it.

This revival of controversy seemed likely to make it more difficult for administration leaders to get congressional approval of Kennedy's recommendation for a four-year extension of life for the commission and a broadening of its authority. Unless Congress acts before then, the commission would go out of existence in November.

CIVIL RIGHTS ISSUE

There already is general recognition that the commission matter is the only civil rights issue likely to be pushed to a vote this year. Otherwise, Kennedy's program in this field probably will await election year consideration. Chairman James O. Eastland, D-Miss., of the Senate Judiciary Committee which passes on all civil rights proposals, called the

SUCCESSFUL DRIVE BY STEEL FIRMS

By ROGER LANE
AP Business News Writer

NEW YORK (AP) — The steel industry was in the mop-up stage today of its first successful drive for a significant price increase since 1958.

All but a comparative handful of steel firms had posted mark-ups, mostly averaging three per cent or less, on a narrow range of big-tonnage products. The rear guard was falling in line rapidly.

There was still no direct word on their actions from President Kennedy beyond qualified recognition a week ago that some boosts probably were justifiable and a caution to steelmen against going too far.

JFK IN TOUCH

However, the President kept in close touch throughout. He was expected to be drawn out on his views in an appearance Friday before the American Society of Newspaper Editors.

The character and handling of the pricing move contrasted markedly with an abortive effort a year ago for an across-the-board increase.

It took eight days for the initial price rise, by Wheeling Steel Corp., to spread somewhat unevenly through the industry. The pitched battle of April 1962 over across-the-board increases ended in a roll-back within 72 hours.

The selective increases this year left some questions that divided close observers and might take a long time to answer conclusively.

MAY BE BLESSING

Will prices of steel-made consumer goods rise appreciably? How, if at all, will the results affect wage-price stability, a key administration goal with ramifications for the entire economy?

Frederick Kappel, board chairman of the giant American Telephone and Telegraph Co., made clear Wednesday that he doesn't share the President's concern in this area.

The boosts "may be a blessing in disguise to the economy," Kappel told the ATT annual meeting.

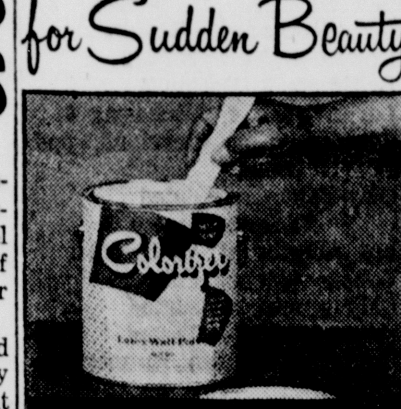

The executive, who also is chairman of the Business Council, a sort of Who's Who of industry, said he thought Kennedy's stand-aside role of recent days bolstered business confidence.

commission's recommendation for cutting off payments on highways, flood control, military contracts and other U.S.-aided programs "preposterous."

He said the President doesn't have "any color of authority" to carry it out.

Agreeing, Sen. John Stennis, D-Miss., said he couldn't conceive of Congress giving any serious consideration to the commission's recommendation that legislation be passed to carry out its suggestion.

Alleged Eichmann Aide Questioned By Austrians

VIENNA (AP) — Erich Rajakovic, alleged collaborator of Adolf Eichmann, was taken into custody Wednesday by Austrian justice authorities.

Investigating Magistrate Kurt Forstner said Rajakovic was ordered held after questioning. Forstner refused to disclose what Rajakovic said. He said he would have to question Rajakovic thoroughly "before I can get a clear picture."

NO CHARGES FILED

The Justice Ministry is investigating to determine whether Rajakovic "aided and abetted in the murder" of Dutch and Austrian Jews during World War II. No charges had been filed against him.

Rajakovic is an Austrian citizen who has lived in Milan since the war as a businessman under the name of Raja. After the Austrian government began its investigation, he went to Switzerland. Switzerland expelled him last week and he went to Munich. He disappeared there and did not come to light again until he arrived this morning at the Vienna court building.

ENTERED AUSTRIA

Interior Ministry officials said they did not know when or how Rajakovic entered Austria.

Dr. Wilhelm Harster, who German newspapers have said was Rajakovic's immediate superior during the war, stepped down from his post as an adviser to the

SPACE WIVES CARRY ON LIKE OTHER WOMEN

AUSTIN, Tex. (AP)—Wives of U.S. astronauts "do no more than

Bavarian Interior Ministry.

The Bavarian government announced Tuesday it was investigating allegations that Harster, an SS major general during the war, had a hand in the deportation of 100,000 Dutch Jews to extermination camps.

Harster, 59, asked the ministry to pension him because of ill health. He has been an official of the state government for six years. Officials said they knew of his past when they hired him.

the wives of helicopter crews in Viet Nam or the women that the Thresher left behind," Mrs. Malcolm Scott Carpenter said Tuesday.

She and the wives of eight other spacemen were here for a one-day visit.

Mrs. Carpenter referred to men lost in South Viet Nam and aboard the nuclear submarine Thresher in addressing a civic club luncheon group.

At another point she spoke of vast change in the lives of astronauts' families.

"It's as if I'd been acting on a dark stage all my married life and suddenly someone turns on the spotlight," Mrs. Carpenter said.

TOUR AUSTIN

She and the other wives took a quick tour of Austin. It was their first excursion from Houston since the newest astronauts were moved to the Manned Spacecraft

Center there last year.

At the luncheon, Mrs. Carpenter said the space wives, suddenly lumped together by news of the astronauts, "strained to maintain our identities."

"We were stringently correct and good to each other. We smoothed over our differences, making allowances for each other's idiosyncracies," she continued.

"And we had a thousand laughs—which more than anything helped maintain our sense of values and proportion in the face of this growing thing in our lives."

QUESTIONS IRRITATE

Questions about the wives' fears during the flights are irritating, Mrs. Carpenter said.

"I am reminded that we do no more than the wives of helicopter crews in Viet Nam or the women that the Thresher left behind. They risked just as much and they lost a great deal more."

With Mrs. Carpenter were the

Refused Vote, Listed As Dead

CLIFFWOOD BEACH, N.J. (AP)—James T. McGuire, 40, said he went to vote in the local primary Tuesday only to be denied a ballot on grounds he was "deceased."

McGuire said officials explained wives of two other original astronauts, Mrs. John H. Glenn Jr. and Mrs. Virgil I. Grissom; and wives of six new spacemen, Mrs. Edward H. White II, Mrs. Thomas P. Stafford, Mrs. John W. Young, Mrs. Frank Borman, Mrs. James A. McDivitt and Mrs. Elliot M. See.

Mrs. Alan B. Shepard Jr. was unable to come as planned because of a delay in returning from an Easter vacation at Cape Canaveral, Fla., with her husband.

that a sample ballot had been mailed to him but was returned with a deceased notation stamped on the envelope. His name then was taken off the list of voters.

McGuire said that by the end of the day the officials had concluded he was definitely among the living and they apologized.

The sample ballot returned by the post office had been sent to a James T. McGuire in a neighboring town who had died.

McGuire did not get to vote—he had to get to work before the complication was resolved.

Seven hundred Negroes were among the estimated 7,000 fans at the first International League game here.

Little Rock joined the enlarged class AAA league this season. Several other teams in the league insisted on desegregated seating at Little Rock. The league has many Negro players.

Mr. K. Is Vast Improvement Over Stalin; Is Still Alert To Goals Of Soviet Party

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — Premier Khrushchev is 69 today. He doesn't exactly mellow with age. But if he died tomorrow the West would have to say—but for the opposite reason — what Sir Winston Churchill said of Stalin's death in 1953: that it was a "milestone in Russian history."
Khrushchev is no Santa Claus. But he's a vast improvement over Stalin, a homicidal maniac. In short, there could be worse than Khrushchev as the West will realize with regret if his successor tries to turn the clock back.
Stalin, with his bad judgment, risked world wars with the Korean conflict and the Berlin blockade. Khrushchev took chances, but not like Stalin, with the Berlin wall and slipping missiles into Cuba.

FOUR ACTIONS
Khrushchev has done four things above all since Stalin's death 10 years ago:
1. He has given the Russian people a far better life than they have had since the Bolshevik revolution in 1917. They have more freedom, although far from full freedom. The terroristic secret police system has been subordinated.
2. He has destroyed the Stalin myth by his 1956 denunciation of the old dictator. This not only had a liberating effect on Russian thinking but on communism in the satellites and around the world.
3. By showing more reasonableness than Stalin he has eased East-West tensions and made war less likely, not necessarily because he wouldn't try it if he thought he could win but because he realizes he might not.
HASTENED SPLIT
4. By trying to avoid war, through a policy less riskily aggressive than Stalin's, Khrushchev has precipitated a split with his Red Chinese allies. Such a split seemed inevitable eventually. He hastened it.
While the freedom of the Russian people is not complete — a good recent example is Khrushchev's quarrels with writers and artists — they are becoming better educated every day. With the education comes thinking.
With that comes critical examination of the Russian Communist party's leadership policies at home and abroad. Because in time this will affect the policies, it will make the leadership more responsive to the people's will.

HIGHER INTELLECT
This could be reversed for a while—another Stalin would set it back—but the higher the intellectual level of the Russian people the more inevitable it seems the dictatorship in time must melt away.
This doesn't mean a sudden burgeoning of the free enterprise system in Russia. But it does mean that in time the Russian people will have some form of democratic socialism.
As for destroying the Stalin myth Khrushchev must have felt he had to do it for some obvious reasons.
Continuation of the myth would have strangled the initiative of Stalin's successors if they sought to meet new situations in new ways. In short, so long as the myth remained the Communist ideal, they would have had to follow in the Stalin footsteps.

STALIN EFFECT
A continuation of the Stalinist system of fear and repression would have had an equally stifling effect on the development of the Russian people, depriving the government of their full energies and talents.
Stalin belonged to the past, which seemed long past about the time he died, a period of rigid discipline over ignorant masses to make them conform and serve at any price to them.
What Stalin wanted, Khrushchev wants: a Communist world. Their big difference is not in goals but in tactics. Stalin might have risked total destruction for total communism.

CELEBRITY RM. CLOSED DOWN BY THE COURT
PHILADELPHIA (AP) — The Celebrity Room, a mid-city night spot owned by ex-chorine Lillian Reis, was closed today by court order.
The order was handed down Wednesday by Judge Bernard Kelley just hours after the State Liquor Control Board in Harrisburg revoked the club's liquor license effective May 7.
Kelley granted a preliminary injunction asked by the city in a suit which contained 13 charges ranging from serving minors to employing known criminals. The liquor board cited four similar charges.
SUFFICIENT EVIDENCE
Only the city and commonwealth's side of the case was presented. Kelley said it left "no doubt in the court's mind that there is sufficient evidence to issue a preliminary injunction."
He set Monday for a hearing at which Miss Reis may present her side.
Miss Reis, free on bail on several charges stemming from operation of the club, is also awaiting retrial on conspiracy charges in the 1959 burglary at the home of John B. Rich, Pottsville coal dealer. Her first trial ended in a hung jury.

Scientists To Hear 3,380 Reports At Annual Meeting

By JOHN BAROUR
Associated Press Science Writer
ATLANTIC CITY, N.J. (AP) — Along the boardwalk on any sunny afternoon this week—as far as the eye can see—are scientists, scientists, scientists.

At the end of opening day, there were 13,600 scientists and their wives and guests registered.
They gathered to hear or deliver some 3,380 scientific reports on subjects ranging from the survival chances in transplanting a human kidney to the role of alcohol in depressing the brain, from the breathing patterns of wind instrument — playing musicians to a close-up, living study of a dog's pancreas, from things as tiny as a molecule to things as huge as scientific meetings.

ANNUAL MEETINGS
This is the annual meeting of the Federation of American Societies for Experimental Biology. It is one of the biggest of the fast-growing scientific meetings.
Almost every hotel in a city of hotels is jammed for the day-long 314 sessions in the next five days.

At one hotel University of Maryland researchers considered the role of alcohol and the depressant effects on the brain. Perhaps not alcohol, but a breakdown product of alcohol called acetaldehyde, is guilty of depressing some vital brain processes, said Gilbert Duritz. Studies with rats indicate this is so.
Down the street, Dr. Jacobus M. Greep of Harvard University told of keeping a dog's pancreas alive for up to five hours with the aid of a heart-lung machine.

Chairman William Z. Scott, R-Carbon, one of the Judiciary-General Committee announced a public hearing would be held May 1 on pending legislation to outlaw the sport by both amateur and professional forms.
The movement to outlaw boxing gathered momentum with the recent death of an amateur boxer after a bout at Carbondale.
The action of Scott's committee highlighted activity in the Senate Wednesday before that chamber adjourned until next Monday.

2 MORE MINERS DIE FROM BLAST

NANTICOKE, Pa. (AP) — The toll from Tuesday night's mine explosion stood at four today.

Two more men—Paul Eckrote, 38, of Hanover Township, and Paul Romanowski, 54, of Nanticoke, died Wednesday night at Nanticoke State Hospital from injuries suffered in the blast.

Killed outright in the explosion, believed caused by methane gas, were Thomas Ruminski, 45, of Glen Lyon, and Henry F. Robey, 48, of Nanticoke.

Two of the eight still hospitalized were in critical condition.
Meanwhile, a report of the explosion in the anthracite mine went to state Mines Secretary H. Beecher Charnbury. He planned to meet with deputy secretary for the anthracite region, Gordon E. Smith, to discuss the report.

About 100 men were working 3,000 feet inside the mine of the Glen Nan Coal Co., when the explosion occurred. Last December 37 miners died in a methane gas explosion in a western Pennsylvania bituminous mine.

Charnbury and Smith planned to meet in Hazleton while the secretary was touring strip mining operations.

The tour was arranged after conservation groups urged stronger controls on strip mines and the refilling of them.
The itinerary called for stops near Wilkes-Barre, Hazleton, Tamaqua, Shenandoah and Pottsville.

Uncle Sam May Get Black Eye In Latin America From Policy On Cuba; Exiles' Hope Dying

EDITOR'S NOTE — The U.S. ban on Cuban exile raids on Castro's Cuba has created deep disillusionment among the exile communities in Florida and posed a potential embarrassment for the United States. Third of four special articles.

By WILLIAM L. RYAN
AP Special Correspondent

MIAMI, Fla. (AP)—No bread is more bitter than the bread eaten in exile.

Because of that, grave concern is being expressed today in Miami at the possibility that current U.S. policy toward Cuba may backfire. The result, say some careful students of the situation, could be a black eye for Uncle Sam and painful embarrassment before Latin America and the world.

Miami has at least 150,000 Cuban refugees. Only a tiny percentage of these is actively engaged in harassing the Cuban Communist regime or attempting to fight it in various ways. But practically every adult Cuban in exile fervently expresses the hope that Fidel Castro will be overthrown.

AGONY OF DYING HOPE

Many Cuban refugees show signs now of going through an agony of dying hope, in the wake of U.S. crackdowns on raids against Cuba or ostensible supply missions to bolster underground anti-Castro fighters on the island.

Some will admit the armed attacks by exiles against the Castro regime—even the attack on a Soviet cargo ship March 18—were mere pinpricks against an entrenched police state power. Many are willing to concede President Kennedy had good reasons for forbidding such attacks, for being concerned about the threat of a monumental Soviet-American crisis which might result from them.

The U.S. government says the attacks in reality provide Castro with additional excuses to crack down against internal Cuban resistance. Some Cuban exiles will admit even that may be true.

LETTING OFF STEAM

But, up to a few weeks ago, at least, something was going on, they say—sudden raids against vastly superior forces; and galloping of the David against the Goliath—the gestures of defiance. It was a way of letting off steam.

Then the United States intervened. The exiles' steam was bottled up.

"There are too many disillusionments," said an anguished young Cuban. "The United States was with us and now it is against us. We can fight Castro or even the Russians in Cuba, but how can we fight them and the United States and Britain, too?"

LOGIC DOESN'T COUNT

Against such sentiments, arguments, no matter how logical, make little impression. Resentment finds its reflection, too, in growing resistance to the U.S. program to resettle exiles in other areas of the United States and ease the burden on Miami. Not one of the scores of exiles I have talked to said he would agree, now, to be resettled.

How many exiles are sheltered in Miami today?

On the rolls of the refugee center, about 162,000 have been registered since the relief program began in January, 1961. Many were in Miami before then, and many others never had to register because they were self-sustaining.

OVER 150,000

Since that time, 57,000 have been resettled in other areas. Miami officials say it is safe to estimate that the minimum number of exiles remaining in the city is 150,000 and that probably the figure is much higher.

Easily three-quarters of the Cubans in Miami come from white collar, professional, and semi-professional classes, jealous of their self-respect and by and large a law-abiding group, Miami officials say. Almost any Cuban one talks with will say he did not come to Miami as an immigrant, but intended to go back home as soon as the homeland was free.

"Why do we stay here?" a Cuban lawyer asked me. "It is close to home. The climate is like ours."

Here are our friends, relatives. We know each other. Elsewhere we would be lost, without any sense of security.

"We are grateful because the United States was the only country which opened its arms and helped us. But we still want to go back home and we want to fight our own fight."

BURMA'S ONCE FRIENDLY FACE IS CHANGING

By PETER ARNETT

RANGOON, Burma (AP)—Neutralist Burma's once friendly face toward the West is reflecting doubt and suspicion now. The Burmese strongman, Gen. Ne Win, is systematically routing out all foreign influences within his country, but the West is hurting the most.

His most recent move was to ban all embassies from showing propaganda films outside Rangoon. The distribution of foreign language publications printed outside Burma also has been banned.

Earlier this year, Ne Win virtually eliminated foreign business interests through nationalization.

FEARS CHINA

Burma has a straggling 1,200-mile frontier with Communist China that compels her to tread a careful neutralist path in foreign affairs, diplomats here say. But they fear that Ne Win, trying hard to unite his country after 14 stormy years of independence, may use the bogey of an imperialistic West to bring this about. He feels he can afford to upset the West, but not China.

Burma tended to be oriented toward the West after Britain gave her independence gracefully in 1948. However, with the rise of the Southeast Asian Treaty Organization in neighboring Thailand, Burmese leaders have tended to withdraw into their traditional suspicion of foreigners.

CEMENTING RELATIONS

Remnants of the Nationalist Chinese army that moved into Burma in retreat from the Communists have stayed to plague the border areas. Only last year, a riot nearly developed in front of the U.S. Embassy in Rangoon because of alleged American support for these elements.

The Communist Chinese have been playing a careful role with Burma over the years, culminating in the signing of a border agreement beneficial to Burma in 1961.

Subtle Chinese influences continue in Burma, with occasional goodwill visits. Even Ne Win's ruthless suppression of the warring Communist parties within his country, and the nationalization of two Communist Chinese banks, have failed to ruffle the Chinese.

The Red Chinese president, Liu Shao-chi, is visiting Burma to further cement relations.

Family Food Facts

Many homemakers will no doubt be looking for ways to stretch that food dollar says Harold Neigh, consumer marketing specialist at Penn State. He says too often shoppers don't really use all the shopping skills they have. Neigh suggests studying the food ads and knowing what is on sale; take inventory of your own food supplies and buy only what you need; prepare a menu, keeping in mind your family's likes and dislikes; make out a shopping list, but be flexible once inside the store.

There will be no drastic changes in the variety of food says Neigh, but recent improvements in weather conditions mean there'll be increased supplies of most spring fresh fruits and vegetables. Fryer chickens will be added to the list of increasing beef and pork cuts. Best values will be those

SCRANTON IN STRONG PLEA FOR REVISION OF BASIC LAW

By H. L. SCHWARTZ III

PHILADELPHIA (AP)—Gov. Scranton made a strong pitch for constitutional revision Wednesday night as the only way to keep state government from faltering in what he called the crucial years ahead.

"State government and its operations cast a shadow long enough to jeopardize our future if they are not in tune with the needs of our time," the governor told some 1,000 members of the Southeastern Pennsylvania League of Women Voters.

Scranton discarded most of a prepared speech keying his remarks to those of another speaker and one of the state's leading proponents of revision, Dean Jefferson Fordham of the University of Pennsylvania Law School.

NO UNDUE CONCERN

The governor's prepared text dwelled mostly on his embattled tax program that calls for increases in the sales and cigarette taxes. It would have been the first time he had taken that program straight to the voters since it was unveiled in the legislature some weeks ago.

The governor's decision to skirt the subject apparently was prompted by the tone of Fordham's speech and the audience. The League has been one of the prime movers for revision of the state's basic law.

At a news conference before the dinner, Scranton expressed no undue concern over his tax plan, voted out of the House Ways and Means Committee Wednesday and sent to the House floor where it faces an uncertain future.

"ONLY THE BEST" Referring to the Constitution, Scranton said "state government by itself . . . cannot guarantee the kind of future the people of this Commonwealth want."

He said, "Pennsylvania can afford nothing but the very best kind of government because the problems facing our state are so serious that we can afford to make very few mistakes and get away with it."

Repeating a plea for "unity of purpose," Scranton urged all out support of the constitutional measure that goes before the voters this fall so that "once this is passed election of delegates to a constitutional convention" will follow.

In his prepared remarks, Scranton said his administration "faces the people of Pennsylvania requesting more revenue with a clear conscience."

ASKS FOR ALTERNATIVES

"There is not one dollar for political waste or for the perpetuation of inefficiency," he said, adding:

"With very tax program there is plenty of room for demagoguery and political nonsense. This tax program will be no exception. To those who say that a tax on clothing is an unpleasant thing, I say that I couldn't agree more. But it's a matter of alternatives . . . to those who say adding 1/2 per cent to the sales is a difficult thing, I say once again that I agree. But I ask what alternative can you suggest?"

Save some of the peanut brittle you've bought for your youngsters; crush it and sprinkle over creamy tapioca pudding.

Items selected for weekend special.

Pork cuts are carrying lower price tags as a result of larger than average supply. For a fast yet economical meal check the fresh pork shoulder steaks or chops from the loin ends.

Of the 25 to 30 different cuts of beef available most shoppers only buy six to eight. Why? Because they are not acquainted with the additional 20 or so cuts.

One of the best bargains in beef is in the specialty items or variety meats. Liver, for example, is all lean meat. For a good stew there's beef shanks or plate beef. Try either of these cuts with noodles for lots of flavor. For pot roasting there is a good selection of cuts, particularly when on special. The blade and arm cuts are favorites to cook with moisture. The rump roast, heel of round and English cut chuck are also economical cuts.

Which cut is the best buy? This is always a good question. Cost per serving is always a better gauge than cost per pound. Even though some of the above cuts may seem expensive in terms of cost per pound they should be judged on the amount of bone, fat and waste they contain.

If you are looking for ways to stretch your food dollar, put all those shopping skills to work. You may be a better shopper than you thought.

Separate Planes For Royal Couple

PARIS (AP)—Prince Rainier III and Princess Grace of Monaco left Wednesday on separate planes for New York and a private visit to the United States.

They will inaugurate a travel and vacation exposition in Philadelphia.

Rainier departed from Paris with the couple's daughter, Caroline. Grace left Nice with their son, Albert.

They travel separately to avoid the consequences of a possible air disaster that might wipe out the family.

STRATFORD, Ont. (AP)—Duke Ellington is composing a musical score for the production of "Timon of Athens" during next summer's drama festival.

The assignment was made by Director Peter Coe, who plans a modern setting for the play of

greed and ingratitude in ancient Greece.

It is Ellington's second Shakespearean exercise. A suite, "Such Sweet Thunder," was written by him in 1956 in honor of the Stratford project.

State Revamps Road Plan ToRelieveUnemployment

(EDITORS: This is the third in an Associated Press state spotlight series on the highway department and Gov. Scranton's plans to speed up interstate construction): Highways—Emphasis on Interstate Roads.

By JACK LYNCH
HARRISBURG (AP)—The State Highways Department is revamping its engineering and building schedules to meet Gov. Scranton's request to have most of Pennsylvania's 1,574-mile federal interstate road network in service or under construction in the next four years.

The chief executive, convinced that the superhighways will provide a path for the Commonwealth to travel out of the unemployment wilderness, asked the department to assign construction priorities to the Keystone Shortway, the Erie-Pittsburgh-West Virginia Freeway, and the Anthracite Expressway.

On the governor's order, department engineers developed a projection showing that \$657.8 million worth of contracts for 539.4 miles of interstate roads could be let by the time he leaves office at the end of 1966.

The projected annual schedule CRASH PROGRAM shows: 1963—133.6 miles, \$169.4 million; 1964—137.5 miles, \$176.8 million; 1965—109.8 miles, \$154.4 million; 1966—158.4 miles, \$157.1 million.

The schedule could be called a crash program and would require a substantially beefed up engineering force to accomplish. In addition, it would probably require diversion of money and attention from other projects to get the work done.

But it would enable the Commonwealth to carry on high spending construction programs with a minimum cash outlay. The federal government pays 90 per cent of the cost of interstate roads and the state 10 per cent.

Pennsylvania has completed and put in service 341.8 of its non-turnpike interstate roads, averaging about 68.7 miles a year since the program got under way in 1956.

RANKS FIFTH
The Commonwealth's progress ranks fifth among the 12 states with major allocations under the federal interstate and defense program.

Based on completions to date, Pennsylvania must step up its construction program to 87 miles a year to finish on time in 1972.

The Keystone Shortway (Interstate 80) running 309 miles cross state from Sharon to Stroudsburg, was the first interstate project and is well under way. As of April 1, 14.7 miles were in service in Monroe, Jefferson and Clarion Counties, 64.5 miles are under construction, a contract for a 3.7 mile segment in Luzerne County will be let later this month, 194.4 miles are under design, and the final 32.2 miles are being restudied. Construction costs to date are \$65 million.

The Erie-Pittsburgh-West Virginia Freeway (Interstate 79) run north-south, a distance of 178.8 miles through eight Western Pennsylvania counties. More than \$24 million has been spent on construction thus far.

BETTER THAN FOUR MILES OF THE freeway is in service in Washington County, another 26.5 miles are abuilding, a 8.8-mile section will be put out for contract this month, and the final 139.2 miles are in various design stages.

The Anthracite Expressway is a portion of Interstate 81 which extends 232.9 miles from the New York line in Northeastern Pennsylvania to the Maryland border in Franklin County.

To date, \$20.3 million has been spent on the Anthracite link, with eight other sections in various stages of construction in Lackawanna and Luzerne Counties, a

PALERMO FREE ON HIGH BOND

MERCER, Pa. (AP)—Frank D. Palermo Jr. was freed on \$50,000 bond Wednesday in connection with a fire at the Youngstown (Ohio) Club.

Palermo, son of one-time boxing manager Frank (Blinky) Palermo, faces continuance of the hearing started Wednesday before U. S. Commissioner David W. Ketter at nearby Grove City.

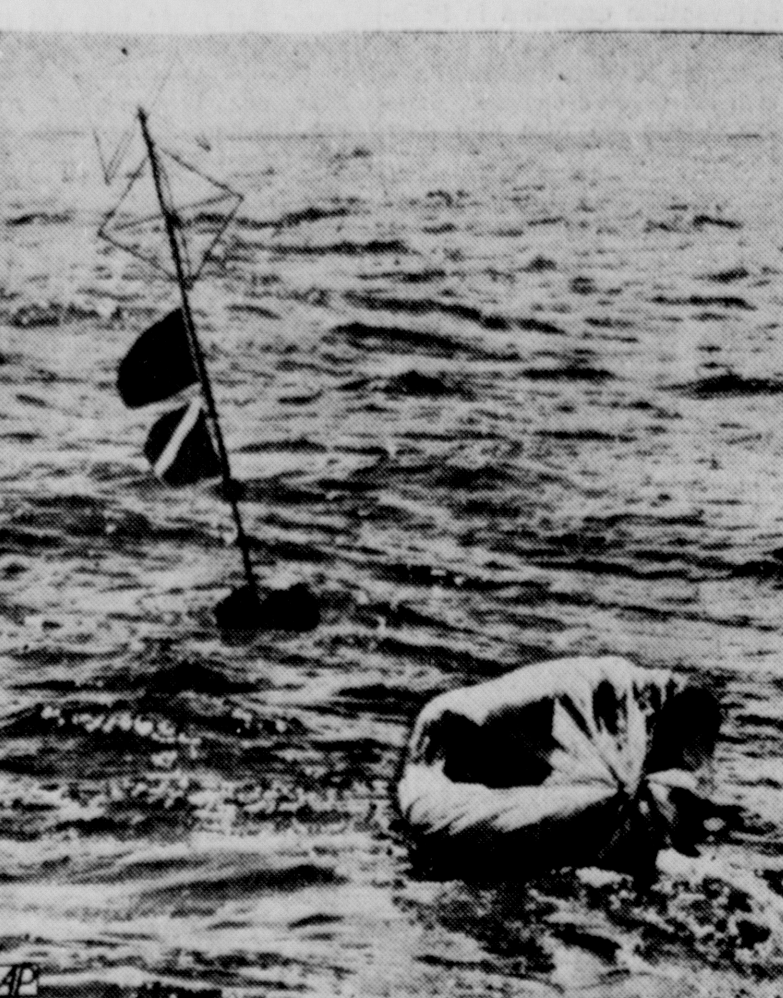

Ketter continued the hearing to a later date at the request of the U. S. Attorney's office in Cleveland. Officials there said they had two persons they wanted to produce as witnesses in the fire.

ARRESTED AGAIN
Palermo had been in Mercer County jail in lieu of the bond. He was arrested in Erie April 10 on charges of fleeing Ohio to avoid prosecution. He earlier had been charged with arson in the Youngstown case.

Immediately after Wednesday's hearing Palermo was arrested by U. S. marshals on fugitive charges stemming from a Michigan case.

He is accused of writing bad checks in Michigan. Ketter set bond at \$5,000 on that charge.

WASHINGTON (AP)—The Community Facilities Administration Tuesday advanced \$35,000 to York County's central school district to finance planning of a 12-room elementary school at Yorklyn and an 8-room addition to the elementary school at North Hills. The project will cost an estimated \$380,000.

TODAY IN HARRISBURG — rn.
By THE ASSOCIATED PRESS
HARRISBURG (AP)—The General State Authority was restudying today two projects on which contract bids were rejected for exceeding allocations.

The projects were for expansion of the Youth Development Center at Waynesburg in Greene County and the replacement of a dairy barn and rewiring of a patient building at Somerset State Hospital.

Bids on the Waynesburg project were \$360,360 above the allocation, the GSA reported Wednesday. Somerset offers were \$51,672 too high.

The allocation for Waynesburg was \$2,445,655, while \$88,100 was allotted for the work at Somerset.

HARRISBURG (AP)—The state Public School Building Authority expects to receive bids May 23 on a \$25 million bond issue.

Between \$17 and \$19 million of the new issue would be used to redeem bonds sold in 1960 at a net interest cost of 4 per cent. The rest would go for construction.

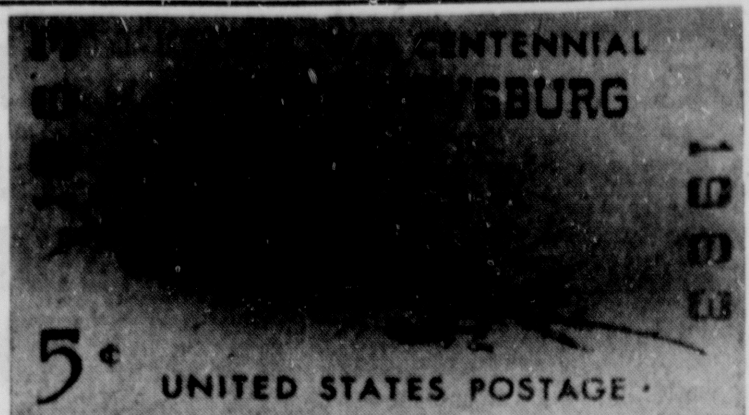

The authority said its recent interest rates have ranged from per cent to 3.23 per cent.

HARRISBURG (AP)—Internal Affairs Secretary Genevieve Blatt has been named by Defense Secretary Robert S. McNamara to the defense advisory committee for women in the service.

HARRISBURG (AP)—An investigation is being planned into conditions at an Allegheny County railroad crossing where three persons were killed in a car-train crash last April 4.

The Public Utility Commission ordered the probe Wednesday. A review of the records, the PUC said, showed three earlier accidents occurred at the same crossing, located at Juniper Street in Versailles.

HARRISBURG (AP)—Thirty accidents, none fatal, occurred on the Pennsylvania Turnpike during the 102-hour Easter holiday period, the Turnpike Commission reported Wednesday. More than one-half million vehicles traveled the toll road between 6 p.m. last Thursday and midnight Sunday.

The public doesn't agree with the judges of the Gettysburg Centennial postage stamp, according to 32,000 votes received by the Postmaster Gen. J. Edward Day following publication of pictures of the six finalists in the commemorative stamp competition in February.

Official judges chose a stamp submitted by Roy Gertson, San Pedro, Calif., which also was famous for the misspelling of centennial. The spelling has been corrected and the stamp will be issued July 1 at the Gettysburg Post Office.

The 32,000 persons who mailed ballots to Washington gave the design by Russell E. Hill (shown above), Gordon, Wis., 13,011 votes for first place. Gertson's entry received only 5,905 votes from the group.

HONOLULU (AP)—The job of cleaning up after Hawaii's worst storm in 12 years got under way Wednesday. The state asked President Kennedy to help.

Gov. John A. Burns declared the hardest hit islands of Oahu and Kauai State disaster areas Tuesday night and appealed to the President to make available federal emergency assistance to aid in restoring public property.

SCRIBES HOLD OUTER SPACE PRESS CONFAB

NUTLEY, N.J. (AP)—Five New Jersey newspapermen held the first press conference through outer space early today, using the communications satellite Relay 1 in a 25-minute hookup between here and Rio de Janeiro in Brazil.

While the press conference was being held, an Associated Press photo—a Satelphoto—showing the five men seated around a table was sent to Rio through the satellite.

The hookup was between the ground station at the International Telephone & Telegraph Corp. laboratories here and a portable ground station operated by IT&T at its subsidiary in Rio.

QUALITY WAS GOOD
In Rio, officials said the picture quality was good, though slightly dark and with barely visible white dots.

It was transmitted from The Associated Press general office in New York to the American Cable & Radio Corp., in lower Manhattan and thence to IT&T's station.

The five newsmen who took part in the space press conference were James Hill of the Newark Star-Ledger, Ber Nawyn of the Paterson Evening News, Joseph Grant of the Bergen Record, Dave Carlisle of the Passaic Herald-News, and Kenneth Gross of the Newark News.

Gov. Nelson A. Rockefeller of New York, regarded as a front runner for the 1964 Republican presidential nomination, and Sen. Jacob K. Javits, R-N.Y., have been booked as speakers for a Young Republican National Federation rally opening in New York City Friday.

Invited to speak on the program, Goldwater said in a letter to Leonard J. Nadassy, federation president, that he couldn't attend. But he offered some advice.

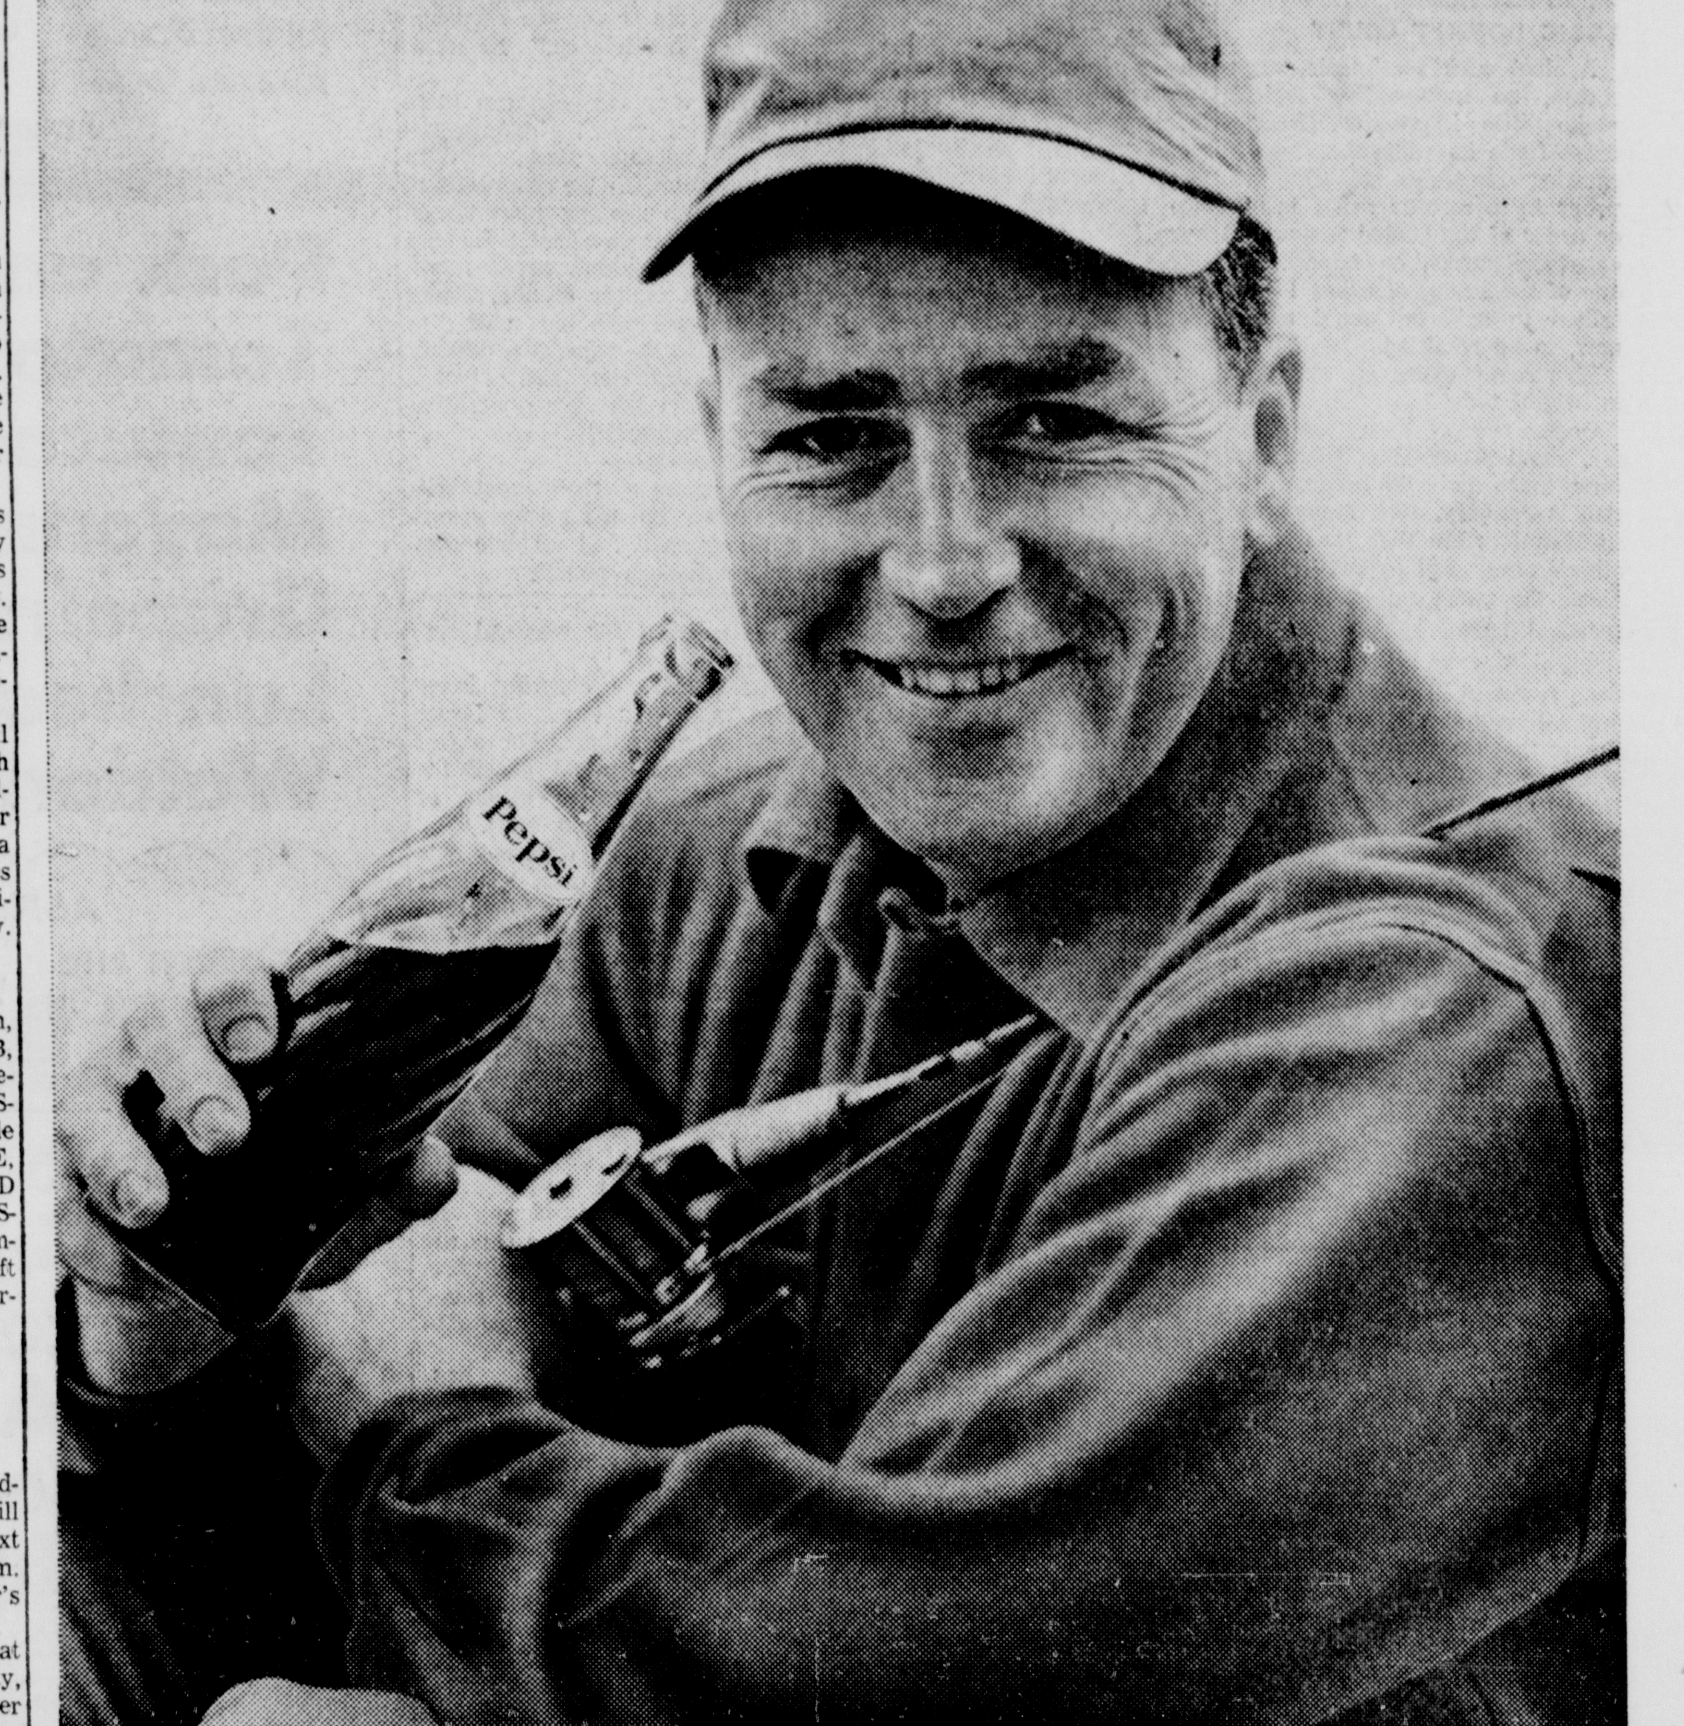

"It seems to me," he said, "that the whole subject of ethnic and minority groups and their relationships within our society have been talked to death."

WASHINGTON (AP)—Sen. Barry Goldwater, R-Ariz., advised Republicans Wednesday to avoid "any sort of special appeal based on race or creed" in seeking voter support in next year's elections.

Goldwater, a spokesman for party conservatives, said the GOP ought to leave "emotional gimmicks and fantastic promises" to the Democrats.

A Bit Of History About Early Settlers

By B. F. M. MacPHERSON

"JUST WHO MARRIED WHO"

Last week, in this column, the marriage, in 1825, of Miss Adaline McKesson, the daughter of James McKesson, of McKesson's Town, this County, to George V. Massey was noted. This family (McKesson) was an old and well-known one in the Adams County section at one time. Young Alexander McKesson was "taken by the Indians in 1756" but was returned some years later. He had a rather difficult time adjusting to "civilization" after life with the Indians and seems never to have entirely given up some traits acquired from them. Alexander McKesson and other members of his family are buried in the Lower Marsh Creek Cemetery.

Additional data on the McKessons will be given when a study is made of the old burial ground of the church to which they belonged.

The marriage records of the Rev. Dr. William Paxton, as recorded by himself, are continued at this time.

52. "Married, July 28, 1825, John Irwin, of Hamilton Bann Township, this County, to Miss Eliza Bailey, of the same place."

53. "Married, August 11, 1825, Thomas Orr, of Hamilton Bann Township, this County, to Miss Tabitha White, of the same place."

PIONEER FAMILY

Note:—The bridegroom mentioned in the foregoing was a member of the pioneer family for whom the village of Orttanna was named.

54. "Married, February 9, 1826, Nathaniel Paxton, of Franklin Township, this County, to Eliza Scott, the daughter of David Scott, of Liberty Township, this County."

55. "Married, March 9, 1826, James Rowan, of Cumberland Township, this County, to Catherine Wilson, the daughter of Captain Joseph Wilson, of Liberty Township, this County."

Note:—Members of Rowan family were pioneers in what is now Adams County, Pennsylvania, and early members of Lower Marsh Creek Church. The Wilsons, at least this particular branch, were members of the Upper Marsh Creek Church and Captain Joseph Wilson is buried in Black's (Upper Marsh Creek) graveyard.

56. "Married, March 9, 1826, Robert Breckenridge, of Cumberland Township, this County, to Miss McKee, the daughter of John McKee, of the same place."

57. "Married, March 26, 1826, Rev. William Hutchison, of Huntingdon County, Pennsylvania, to Miss Margaret Waugh, of Ham-

ilton Bann Township, this County."

Note:—The Waugh clan were pioneer settlers in this section and early members of the Lower Marsh Creek Church. Quite a few members of this family are buried in the old churchyard.

58. "Married, October 12, 1826, Robert McKinney, of Mountjoy Township, this County, to Mrs. Bucher, of Cumberland Township, this County."

MARRIED IN 1827

59. "Married, February 27, 1827, John Mahue, of Maria Furnace, this County, to Miss Magdalena Swickert, the daughter of George Swickert, of the same place."

Note:—Neither the names of Mahue or Swickert are native to this locality. Undoubtedly, the principles in this case were imported workers at the Maria Furnace. Rev. Dr. Paxton's eldest son was part owner of this early iron works and probably sent the couple to his father to be married.

60. "Married, March 8, 1827, John McCullough, of Hamilton Bann Township, this County, to Miss Elizabeth Irvine, of the same place."

Note:—The McCulloughs were pioneers and were listed among the first members of the Lower Marsh Creek Presbyterian Church. The early graves of this clan are located just within the east gate of the old burial ground.

61. "Married, March 15, 1827, Abraham Scott, Junr., son of Abraham Scott, Senr., of Hamilton Bann Township, this County, to Miss Rachel Cobean, the daughter of William Cobean, of Cumberland Township, this County."

Note:—The Scott family was a well known and outstanding one in the early history of what is now Adams County. They intermarried with many of the other old families, including the Agnews. The Cobean were equally well known and early members of that family are buried in Black's graveyard.

62. "Married, March 18, 1827, John Hayes, of Hamilton Bann Township, this County, to Miss Anne McMillan, the daughter of William McMillan, of the same place."

63. "Married, March 24, 1827, Isaac Robinson, of Hamilton Bann Township, this County, to Miss Agnes M. Wilson, the daughter of James Wilson, Esq., of Millers-town (now Fairfield), this County."

Note:—The bride in this case was one of the four daughters of the Hon. James Wilson and his wife, Mary Reed. Apparently this

Wedding

MRS. ROSS

The wedding of Miss Dorothy Jean Myers, daughter of Mr. and Mrs. Roger Myers, Fairfield, to Herbert James Ross, son of Mrs. Ella M. Ross, 1122 W. Union Blvd., Bethlehem, was solemnized Saturday afternoon at 1 o'clock at Christ Church, United Church of Christ, Bethlehem, by the Rev. Augustus Weish.

Carlton Weaver presided at the organ and accompanied the soloist, Mrs. Evelyn Clark.

The bride, given in marriage by her father, wore a floor-length gown of Italian scalloped lace over white satin and a fingertip modesty veil. She carried a cascade of white orchids and stephanotis.

Mrs. Roger Myers, Jr., Greensboro, N. C., sister-in-law of the bride, was the matron of honor and she wore a street-length dress of aqua organza and carried

was a happy marriage. Isaac Robinson, for many years, kept the tavern in Fairfield—the old stone building is still standing and used as a tavern.

64. "Married, December 18, 1827, Captain Samuel Cobean, of Cumberland Township, this County, to Mary McMillan, the daughter of William McMillan, of Hamilton Bann Township, this County."

Note:—Mary (McMillan) Cobean was a sister of the Anne McMillan, who married John Hayes, in March of the same year.

65. "Married, April 23, 1828, James McElroy, of Franklin County, Pennsylvania, to Miss Ruhannah Douglass of the same place."

Note:—Very possibly this couple eloped to Adams County to be married. Fairfield was probably in their "line of march" and the Rev. Dr. Paxton lived at that place.

These notes will be continued in this column next week and Rev. Dr. William Paxton's record of marriages further transcribed.

white pom poms and pink rosebuds. The bridal attendants were Mrs. Donald Schleicher, Allentown; Miss Patricia Ori, Reading, and Miss Jane Clarke, Allentown.

Robert W. Rudas, Bethlehem R. 1, was best man and the ushers were Joseph Vallone, Dr. Hyoung Chung and Anthony Caciatore, Bethlehem.

Following the ceremony a reception was held at the Pilots' Club, ABE Airport. The couple will live at 2180 Pinehurst Road, Bethlehem.

The bride graduated from Fairfield High School and East Stroudsburg State College. She is instructor of physical education at Liberty High School. The groom graduated from Bethlehem High School, University of Colorado, is metallurgy instructor at the same school.

6-HOUR BUDGET HEARING BOGS DOWN IN PILE OF STATISTICS

HARRISBURG (AP) — Chairman Blaine C. Hocker of the House Appropriations Committee said today he would want to study the \$550 million in spending request for education before repeating his assertion that Gov. Scranton's \$1.12 billion budget is "very lean."

Hocker made the statement about a "lean" budget—meaning a budget hard to cut—Wednesday before the Department of Public Instruction appeared before the House and Senate Appropriations Committees to explain spending adding up to about half the 1963-64 general operating budget.

At the time, the departments and agencies that had appeared before the two committees represented no more than 20 per cent of the spending requested.

LATER NONCOMMITTAL

After listening to the public instruction department for nearly six hours, Hocker was noncommittal about the "leanness" of the budget.

"I haven't had a chance to study this department's request," Hocker said when asked if he still felt the budget looked "lean."

Public instruction, headed by state school Superintendent Charles H. Boehm, appeared before the committees' joint hearings in a session that started in late afternoon, recessed for dinner, and continued to until near midnight.

BOEHM PREPARED

Boehm backed up his testimony with a 51-page presentation, augmented by a battery of top aides.

The committees moved out of the regular hearing room to the more spacious House Republican caucus room to accommodate the crowd of witnesses, legislators and spectators attending.

The six-hour session seemed dull and lethargic, bogged down in a staggering pile of statistics.

MOST ASININE

The high point was discussion of the fact that students at the 14 state-owned college pay a \$3 a week fee to help pay for dormitory food for them by the state although students at private colleges and universities where the state builds facilities pay nothing.

NEW CANADIAN CHIEF TAKES OATH MONDAY

OTTAWA (AP)—Liberal Leader Lester B. Pearson will take the oath as Canada's 14th prime minister Monday, heading the country's second successive government without guaranteed majority support in the House of Commons.

Gov. Gen. Georges P. Vanier named Pearson to take over after Prime Minister John G. Diefenbaker resigned, effective Monday.

His Conservative party trailed Pearson's Liberals in the national elections April 8.

After his conference with Vanier Pearson said he hopes to meet with President Kennedy late this month or early in May. He said he plans to see British Prime Minister Harold Macmillan before going to Washington.

SESSION MAY 16

Pearson said he hopes to call the new Parliament into session May 16.

As Pearson got the official nod, the Social Credit party announced that six of its members who had pledged formally to back the Liberal leader had withdrawn their pledges.

Thus Pearson will be three votes short of a majority in the new 265-member Parliament. His Liberals have 130 seats, the Conservatives 94, Social Credit 24 and the New Democratic party 17.

However, Social Credit Leader Robert N. Thompson said his party will support Pearson as it did Diefenbaker—with no specific demands or conditions attached—"as long as it brings in sound legislation."

DAYS OF DECISION

Pearson said that after taking the oath of office Monday, he will begin the "60 days of decision" he promised during the campaign, a period he said would produce more constructive proposals than

State Treasury Pictured As Haven For Democrats

HARRISBURG (AP)—The State Treasury was pictured as a haven for displaced Democrats in testimony before legislative appropriations committees Wednesday.

Treasury was the first of three Democratic-held state departments to plead its case for budget appropriations before the Republican-controlled joint appropriations committees of House and Senate.

Republican lawmakers questioned the department's practice of finding jobs for Democrats fired to make room for Republicans in the new state administration.

REPUBLICAN TRICK

Democrats in turn claimed the projected \$22 million deficit in the current budget was a Republican attempt at political embarrassment.

State Treasurer Grace M. Sloan was accompanied at the hearings by her executive assistant, David R. Baldwin, who was budget secretary in the Democratic administration of Gov. David L. Lawrence.

Mrs. Sloan, elected in 1960 read a statement explaining her department's requests.

At the end she said there is \$4.1 million in the World War II veterans' bonus bonds sinking fund that could be used to reduce the 1962-63 deficit projected by Budget Secretary Martin H. Brackbill.

DEFICITS "INFLATED"

The \$4.1 million was part of the \$16.6 million surplus at the end of the 1961-62 budget period. The remainder of the surplus was earmarked for 1962-63 appropriations.

Democrats had intended to use the \$4.1 million to pay part of the \$29 million bond payment due this year. Since there was \$29 million already appropriated for this purpose, Republicans decided after they took office last Jan. 15 to carry the money over.

Rep. Martin Mullen, D-Phila., asked Baldwin if it was his opinion the Republicans had inflated the deficit estimate to make the Lawrence administration—which had boasted about balancing the budget during last fall's gubernatorial campaign—look bad.

TOOK SHELTER

"In the particular context of which we are speaking—the \$4.1 million—I would have to say yes," Baldwin stated.

any government in history. High on the list will be the question of accepting U.S. nuclear warheads for Canada's Bomarc missiles and its air force units serving with the North Atlantic Treaty Organization forces in West Germany.

U.S. criticism of the Conservative government's refusal to accept the warheads was one factor in the government's overthrow.

Pearson said Canada should make good on its pledge to take the nuclear arms, then negotiate with the United States to get rid of them.

Grieving Dad Who Gave Possessions Away Suicides

CHICAGO (AP)—James Lee, a grieving father who gave away nearly all his possessions to charitable institutions in memory of his 9-year-old daughter, is dead by his own hand.

Two police officers found Lee, 46, Tuesday night moments before they said he fatally shot himself in a tavern telephone booth.

In his pockets they found a child's crayon drawing, much folded and worn.

On it was written: "Please leave in my coat pocket. I want it to be buried with me."

The drawing was signed in childish print by his blonde daughter, Shirley Lee, who perished March 4 in a flash fire in their apartment. Her mother had died when she was 2.

Lee was so grief stricken then that he asked total strangers to attend the services so Shirley would have "a nice funeral." He said he had no family to attend. Shortly after Shirley's funeral, Lee gave his 19-apartment building, where the fire occurred, and a two-flat building to the Lutheran Church of St. Philip, which Shirley attended. Several plaques in her memory were placed in the church and her school.

Before Lee died in a North Side tavern he called the Chicago Daily News and told William F. Rooney, assistant city editor, he had sent the newspaper a Manila envelope. Mooney said he stalled Lee while a reporter asked police to trace the call.

As Mooney listened the envelope arrived. Its contents included a note Lee said he wrote while visiting Shirley's grave late Monday night.

"Strange," it said, "but I am very calm here on the edge of eternity. I want only to get it over and done with."

"If I don't finish this up I'll be a bum," Mooney said Lee told him shortly before the shot was fired.

Mooney said he heard a scuffling sound (the police trying to get into the telephone booth) and then he heard a shot.

Mooney said Lee, in instructions included in the package, asked to be buried next to Shirley in St. Lucas Cemetery.

Lee built his modest wealth first in a trucking business he started with a single truck. After his wife died he shifted to building investment and management so he could be close to his daughter.

Little Kim, Adopted Korean Baby, Very Happy With Her New Home

Easter morning is candy and gaily colored eggs to most children, but to Kim Moon Ja Jacoby, three and a half, it was "wots and wots of toys." And her favorite "toys" are books.

Kim is the adopted daughter of Mr. and Mrs. Donald Jacoby, Biglerville Rd., and accepts her dentist's instruction against candy without protest. She is currently undergoing special dental treatment which involves capping each of her teeth in an attempt to correct a prenatal deficiency.

Kim was abandoned shortly after birth in the streets of Pusan, Korea, late in 1959 and was taken to the Children's Charity Hospital, where Daniel Roth, Orrtanna, was a director under the overseas program of the Mennonite Central Committee. She suffered from extreme exposure and at the age of two months was stricken with pneumonia. She arrived in this country in May, 1960, to become the adopted child of the Jacobys, and a month later suffered a heart attack.

ADOPT AMERICAN

The Jacobys had two children of their own, Karen, now 16, and Donald, 11. They also had adopted an American boy, Kevin, now 8.

"Kim was very delicate when we first got her," Mrs. Jacoby says. She recalls that she was extremely nervous and was allergic to nearly everything she ate or touched. But the Jacoby family adored her, and when she became convinced that she was loved and wanted her allergies began to disappear and her nervousness subsided. "She is very calm now," Mrs. Jacoby reports, "and is unbelievably patient and even-tempered."

Mrs. Jacoby says she is constantly amazed at Kim's self-sufficiency. She was able to feed herself unassisted at 12 months and was able to completely dress herself at 18 months.

"Before she was a year old," her mother says, "she recognized Orientals, and broke into smiles." She loves to dance and sing and loves pretty clothes and pictures. She is a very sensitive child and "appears to be a born nurse."

She wants to take care of everyone, her mother says, and is extremely sympathetic with everyone, even though they may be complete strangers to her.

"I'M SO HAPPY!"

On Sunday afternoon her parents visited the battlefield and, throughout the trip, her mother reports Kim was jubilant.

"She kept singing 'I'm so happy... I'm so happy!'" her mother says.

All of which causes one to ask: Does she remember unhappiness and insecurity?

MRS. LUTHER WETZEL
ORRTANNA — The fourth annual Easter dawn service on Sunday morning in Mt. Carmel EUB Church was well attended and approximately 125 remained for breakfast. The service was conducted by the pastor, the Rev. Alfred Gotwalt, and the guest speaker was the Rev. Otto Kroeger, Fairfield Lutheran pastor.

After the prelude by Mrs. Clyde Metz opening the service at 6 a.m., the call to worship was given by the pastor. After an Easter hymn, he offered prayer and there was special music by Miss Leanna Lightner and Kenneth Gotwalt. Mrs. Clair Rebert read the scripture. There was special music by the Mt. Carmel Choir.

The Sunday School hour followed at 9:30 o'clock and the evening worship service at 7 o'clock.

Gerald Hess has returned to the Pennsylvania State University, University Park, after spending the Easter weekend with his parents, Mr. and Mrs. Gerald Hess, Orrtanna.

The Rev. Alfred Gotwalt, Mt. Carmel EUB pastor, reported 145 took communion in his charge during the Easter season. All services in the charge were well attended.

BARNARD HEAD SAYS HOME EC "NOT ENOUGH"

By JOY MILLER

NEW YORK (AP) — "I still maintain," says Dr. Rosemary Park, "that an A on a Shakespeare paper is not the same as an A in egg omelet."

Dr. Park, who will be officially inaugurated as president of Barnard College April 22, is discussing one of the notes in her academic spectrum, home economics. Typically, she does it with wry humor.

"I get the home economists after me, but I think I'm right. I'm not opposed to going into nutrition as a profession, but to think you can train 'em up scientifically to be artists to run a home—You can't run a home according to certain scientific principles."

NO HOME EC

Fortunately, there is no home economics for the 1,600 girls at Barnard, where Dr. Park quietly took up her duties last fall, succeeding Millicent C. McIntosh.

Dr. Park is a small woman with graying hair, a youthful, mobile face and blue eyes that look at you warmly.

She is no stern moralist; "I

Fairfield

FAIRFIELD — The Fairfield Homemakers met Wednesday evening at 7:30 with Mrs. George Myers as hostess for "broiler meals."

The Clover Kids 4-H Club of Fairfield will reorganize Wednesday, May 1 at 4:15 p.m. in the Lutheran parish hall. Following an election of officers, projects for

went to college in the '20s which was supposed to be a wide open era. I'm afraid I can't get as excited as most about the state of girls' morals today."

As for educating girls, she believes in doing it on the same academic level as for boys.

"Women have a more complicated role to play than a man does."

PREPARE FOR JOBS

"It seems to me that when you've got society set up as it is, women are expected to take part in its economic life. I say to my girls: 'Most of you will gainfully employed at some point in your life, shouldn't you be prepared?'"

"I tell them: 'You should be prepared as a dentist, for example, in case the gentleman you can stand doesn't come along. It's better to be trained as a dentist and never practice than to want desperately to be a dentist and not have the training.'"

the summer will be selected. All girls who have their 10th birthday this summer upwards to 20 years are eligible to join. Mrs. Helen Tunison will attend the meeting, with Mrs. Edward Snyder, local leader and Miss Sherry Hann, junior leader.

RESIGNATION IN

OTTAWA (AP)—Prime Minister John Diefenbaker said Wednesday he has handed his resignation to Governor-General Georges P. Vanier effective at noon Monday.

JFK RETURNS TO HIS OFFICE

PALM BEACH, Fla. (AP)—President Kennedy returned to Washington Wednesday, tanned and relaxed after an Easter vacation.

The First Lady and her two children, Caroline, 5, and John Jr., 2, will remain in this seaside resort city until April 24 when they will fly back to the White House.

During the final hours of his six-day holiday stay in Palm Beach, Kennedy kept in close touch with his Council of Economic Advisers in Washington, and with Secretary of the Treasury Douglas Dillon who is vacationing at nearby Hobe Sound, Fla., on the steel industry's selective price increases.

A Soviet trawler carrying many antennas and other electronic gear steamed down the Florida coast Tuesday within sight of the Kennedy seaside home. It stayed just outside U.S. territorial waters. A Coast Guard cutter went out to take a look at it but did not exchange communications with it.

Kennedy conferred with Charles E. Bohlen, U.S. ambassador to France, aboard the presidential yacht. Bohlen said later it was a routine consultation and he planned to return to Paris today.

SMOKE TRAPS 600 PERSONS IN SUBWAY

NEW YORK (AP)—Hundreds of persons, some on the verge of panic, were evacuated from a Brooklyn subway tunnel Tuesday when a fire sent dense smoke billowing through two passenger trains.

An estimated 600 persons were trapped on the stalled trains between stations. At least 100 were treated at the scene for smoke inhalation. Nearly 100 others were sent to hospitals for treatment. A dozen were kept in hospitals.

Police said the fire started about 3 p.m. in the motors of a work train near a station in the Ridgewood section of Brooklyn. The work train stopped. Immediately following were two four-car passenger trains. They stalled and their lights went out.

Acrid smoke reached the passengers.

Fire Commissioner Edward Thompson said, "Thank God this didn't happen at the height of the rush hour."

WOMEN HYSTERICAL

Samuel Marco, 38, motorman on one of the stalled trains, said, "I spoke to the passengers. I said that if they would follow me, I would lead them out to a station along the tracks."

"Many women were hysterical. Many people began to cough. I took three groups out."

A conductor, Harold Johnson, 37, related: "When the train filled with smoke, women passengers became nervous. One woman cried out, 'I'll be burned to death.' I tried to assure her by saying 'There is no fire, just smoke.'"

"I took a flashlight and had about 20 people follow me along the tracks. I made several trips and took three groups out."

The Transit Authority shut off power on the line at 3:05 p.m. Service was resumed at 6:41 p.m.

LARGER FARMS ARE RESULT OF PRICE SQUEEZE

By OVID A. MARTIN

WASHINGTON (AP)—The Agriculture Department said Wednesday various economic studies show that a major factor in the increasing size of U. S. farms is what it calls a squeeze between prices farmers receive and production costs.

"In order to cope with the cost-price squeeze, even the larger farmer generally will try to expand his business," the department said in a report.

The number of farms in this country has declined from 5,197,500 in 1932 to 3,688,100 in 1962, although the total amount of land in the farms has changed very little.

SIZE LIMIT

Yet, the report said, there appears to be limits to which farms can be increased and obtain economic production.

Studies in North Dakota were said to show that some cost advantages appear to be on the side of medium-size rather than large or small farms in the mechanized production of grains. The smallest farms ran up the highest costs per acre mostly because the machinery was used less during the year.

The report said that savings in cost per acre through farm enlargement appear to be greatest in the production of soybeans, corn, oats and in some cases wheat.

The average U. S. consumer now spends 2.5 per cent of his income for beef. Thirty years ago he spent 2 per cent.

Perishable foods stored in the nation's refrigerated warehouses on April 1 was 5 per cent greater than a year earlier and 27 per cent above average for the date.

Last year's big buildup of cattle and calves for feeding for the quality slaughter market continued to be reflected in feeding areas despite heavy marketings since the first of the year.

An Agriculture Department report showed today that 8,105,000 head were on feed in 28 major feeding states on April 1, an increase of 11 per cent over a year earlier.

Cattle prices have dipped considerably this year, reflecting the increase in numbers and bountiful supplies of pork and poultry.

Estimated farm fire losses reached an all-time high of \$175 billion in 1962, 7 per cent greater than in 1961. The estimates were based on farm-fire loss experience of a sample of 226 farmers' mutual fire insurance companies in 27 states. Fires strike about two out of every 100 farm each year.

PLOT FAILS

PORT AU PRINCE, Haiti (AP)—Strong man Francois Duvalier still held power as president Wednesday after a military plot which a government communique said had been foiled.

The communique accused a colonel who had taken refuge in a foreign embassy with a part in the conspiracy.

Col. Lionel Honorat and three other army officers took asylum in the Brazilian Embassy last Thursday.

York Springs

MRS. F. E. COULSON

YORK SPRINGS — The Lions Club met at the Scout cabin Tuesday evening with President Rev. Amos D. Meyers presiding. John Rebert, guidance counselor at Bermudian Springs High School, spoke on the guidance program.

In his talk to the club he indicated, "Two kinds of our Seniors are planning to take additional education beyond high school." He also indicated, "Our dropout percentage is far below the national average of 10 per cent. The dropout for this year is a little over two per cent of the school population."

Fred Stough, chairman of the banquet to honor athletes of the High School reported that the date is set for May 8 in the High School cafeteria. Cameron Ralston, noted lecturer, will be the speaker. The York Springs and East Berlin clubs are cooperating in honoring the sports letters winners in the high school.

Ray Reinecker, chairman of the committee for the Memorial Day chicken barbecue, reported that arrangements are being completed. The barbecue will be held at the Scout cabin on Memorial Day, beginning at 4 p.m. The Easter egg hunt which was sponsored by the Lions Club on Sunday afternoon was attended by over 200 persons. Douglas Scott won the children's basket and Douglas Washington was the winner in the 7 to 12-year-old age group.

The Latimore WCTU meeting will be held at the home of Mrs. Stella Stallsmith on Monday evening at 7:30 o'clock.

Mr. and Mrs. Harold Lerew and daughter, Barbara, Drexel Hill, spent the Easter holidays with the former's parents, Mr. and Mrs. Harvey Lerew.

5 MEXICANS TAKE OFFICE

CRYSTAL CITY, Tex. (AP)—Business went on as usual in this south Texas town of 10,000, where trouble had been feared as its first Mexican-American City Council took office.

The new councilmen, elected April 2, were sworn in without notice at 1 p.m. Tuesday instead of 7:30 p.m. as scheduled.

City Manager James Dill administered the oaths. Fellow council members then elected Juan Cornejo, 33, mayor. They voted to retain Dill.

BOISTEROUS PARTY

Tuesday night the councilmen appeared at a boisterous victory party in a plaza on the east side of town. Most of those attending were of Mexican extraction.

The five Mexican-Americans were elected by a record vote after the Political Association of Spanish Speaking Organizations and the Teamster's Union joined to conduct a poll tax and a voter education campaign.

The five men losing City Council seats in the election had held office for several years, two of them for more than 30 years each.

HATE JAIL SUITS

LONDON (AP)—A plea was sounded today to permit British prison inmates to wear civilian clothes instead of the jail uniforms which "wound a man's soul."

The appeal was issued by the Federation of Clothing Manufacturers.

BARROW-IN-FURNESS, England (AP)—Britain's first atomic-powered submarine, Dreadnought, was commissioned Wednesday as a hunter-killer of enemy underwater craft.

The Dreadnought's nuclear reactor is of American design.

ADVERTISE IN THE TIMES

Why are some drugs like "ecstasy sauce?"

If you read "Li'l Abner" you may recall how the Gourmet's Club plotted to make "Ecstasy Sauce" from the Yokums' pet pig, Salomey. Recipe: Boil down one hammy alabamus (Salomey) until just one single, solitary delicious drop remains—and that is "Ecstasy Sauce." In terms of food, this is humorously ridiculous, but it's actually routine in the making of drugs. Often hundreds of pounds of raw materials must be processed and reprocessed to obtain one tiny pinch of the active medication. Which helps explain why modern drugs are so potent, and why we pharmacists dispense them only when your physician writes a prescription.

Science Lures American Climbers To Mt. Everest

By TOM HENSHAW
AP Newsfeatures Writer

Men, it appears, no longer climb mountains simply because they're there.

An American team of 18 mountaineers and 36 Sherpa porters currently is inching its way to the 29,028-foot summit of Mt. Everest, the highest in the world, more in the spirit of science than adventure.

The team, led by Swiss-born Norman G. Dyhrenfurth of Santa Monica, Calif., includes a psychologist, a sociologist and a glaciologist — and they're working at their trades, too.

Mt. Everest has been climbed before, at least twice, possibly three times.

EIGHTH ASSAULT

A New Zealander, Sir Edmund P. Hillary, and a Sherpa, Tenzing Norkay, members of a British expedition, first reached the summit on May 29, 1953, on man's eighth recorded assault on the peak.

A Swiss expedition also reached the top in 1956 and a Red Chinese team claimed to have conquered the heights in 1960, leaving behind a plaster bust of Chinese Communist leader Mao Tse-tung.

It remains for the Americans to stage the most massive attack on the roof of the world.

Sometime during May, the best climbing season in the high Himalayas, they hope to conquer not only Everest but its sister peaks, Lhotse, 27,923 feet, fourth highest in the world, and Nuptse, 25,726 feet.

SCIENTIFIC STUDY

And, even while climbing, the American teams has transformed Everest's ice and rock slopes into a vast laboratory for scientific study.

Dr. James T. Lester Jr., a clinical psychologist from Berkeley, Calif., is studying the behavior of the climbers themselves while they are under the extreme stress and stimulus conditions of high altitude climbing.

Dr. Richard M. Emerson, a University of Cincinnati sociologist, is investigating the social relations of the "isolated, highly motivated group under stress conditions."

Dr. William Siri, the deputy leader and a University of California physicist, is studying the physiological responses of the climbers as they reach and sur-

pass the limits of endurance.

SNOWFALL SAMPLES

Dr. Maynard M. Miller of Michigan State is collecting samples of snowfall up to 40 years old and also studying the effects of climatic changes on the massive Khumbu Glacier, the gateway to Everest.

Barry C. Bishop of Washington, a staff member of the National Geographic Society, will study solar radiation at 26,000 feet, the highest such studies have ever been made on the surface of the earth.

The American climbers are following essentially the same route traveled by their British and Swiss predecessors, moving up the mountain by way of a series of camps.

The base camp has been established on the Khumbu Glacier at 17,800 feet. The base camp height is surpassed by only five peaks on the North American continent.

From the base camp, the trail leads up the Khumbu Glacier to the Western Cwm (pronounced kum), a vast ice bowl nestled between the three peaks, Everest, Lhotse and Nuptse.

SELECT BASE CAMPS

Right now, according to plan,

the climbers are busy establishing camps on Lhotse Face, 22,500 to 23,000 feet high, and reconnoitering campsites up to 27,900 feet on Everest's Southeast Ridge.

The assaults on the 29,028-foot peak of Everest are scheduled to begin May 2 by three teams of two men each. Simultaneously, other two man teams will attempt to scale Lhotse and Nuptse.

Even though all three peaks have been scaled before, the American expedition's chances of success are rated only about 50-50. Conquered mountains retain the hazards that can thwart even the best of climbers.

The Dyhrenfurth expedition started out with 19 American climbers. One, John E. Breitenbach, of Jackson, Wyo., was killed in a massive icefall last month even before the expedition was fairly started.

Johnnie's Haircut Stirs Citizens

TAMPA, Fla. (AP)—The tonorial taste of the First Family has few supporters around Tampa.

The Tampa Times surveyed Tampa citizens for their reaction to the European style haircut 2-year-old John F. Kennedy Jr. sported Easter Sunday.

Some ridiculed it, some criticized it gently, all thought it impractical.

Joe Cucciaro, barber: "If he's a boy, he should have a boy's haircut. Otherwise, he looks like a girl. In the picture, it looks like he's wearing some kind of cold weather cap."

Sadie Lobo, school secretary: "He just looks like he needs a haircut and can't afford it."

GIVEN YEAR IN JAIL

He received one-year suspended sentences on each of five other counts of involuntary servitude. He also was fined \$2,000.

DETROIT (AP) — A gasoline tanker burst into flames on Detroit's Edsel Ford Freeway Tuesday night, touching off a spectacular two-alarm fire which delayed traffic for six hours and scorched nearby homes.

PIANIST SEEKS BRITISH HOME; REJECTS USSR

By ANTHONY WHITE

LONDON (AP) — Vladimir Ashkenazy, the Soviet Union's leading young concert pianist, and his wife were hiding somewhere in England today after announcing they had left the U.S.S.R. indefinitely to live in Britain.

The 25-year-old pianist insisted he was not seeking political asylum, saying, "I am a Russian and I love my country." But the impression here was that he had defected, as Leningrad Ballet star Rudolf Nureyev did in Paris in 1961.

Ashkenazy came to Britain on a concert tour last month and brought his wife and year-old son, Vladimir. He said the Soviet government had given him permission for an indefinite stay but he "turned to British authorities because we did not know when the Russian permission allowing us to stay in England might be revoked."

RENEWS RESIDENCE

The Home Office said Ashkenazy's wife, Dodie, a native of Iceland, was a resident of Britain for 17 years before she married and had asked to be allowed to take up residence in Britain again. A Home Office spokesman said this was granted and, in accordance with normal custom, the same privilege was extended to her husband.

Mrs. Ashkenazy told a correspondent of the Icelandic newspaper Morgundladit she had "never liked Russia, Russian habits or their way of life."

"I have hoped from the beginning to be able to leave Russia and take my husband and child to England," she said.

EXPECTS CHILD

Mrs. Ashkenazy said she is expecting another child. Her father, Johann Tryggvason, is an orchestral conductor who lives in London.

Ashkenazy's position among young Soviet pianists was underlined last year when the Soviet government picked him to enter the second Tchaikovsky competition. The first Tchaikovsky prize was won in 1958 by an American, Van Cliburn, and the Russians wanted a Russian to get it. Ashkenazy divided the first prize with John Ogdon, a Briton.

Ashkenazy, who is Jewish, made his debut in Moscow at 15, placed second in the Chopin competition in Brussels, the West's top musical prize.

China Blamed In Laos Crisis

LONDON (AP)—The British government accused Communists Wednesday of stirring up trouble in Laos, frustrating the operation of the Geneva agreements to pacify the country, and trying to unload the blame for the strife on the United States.

A Foreign Office statement said a Communist Chinese accusation of American interference in the Southeast Asian kingdom "looked to us like a smokescreen, put out because the Chinese are worried that accusations of North Vietnamese interference may well now be brought home."

The Foreign Office said that Britain, as co-chairman with the Soviet Union of the Geneva conference on Laos, is actively trying to get into operation the machinery provided by the Geneva agreement for preservation of

Sixteen Babies Are Deformed By Drug

WASHINGTON (AP) — Sixteen babies in the United States are believed to have been deformed by thalidomide distributed by U.S. firms, the Food and Drug Administration reports.

In a final report on its intensive investigation of the drug that is held responsible for the birth of 7,000 deformed infants in Europe, the FDA said 2.5 million tablets were distributed in this country.

The FDA report, given to a House Appropriations subcommittee last February and made public today, says an investigation is still under way to determine whether the William S. Merrell Co. of Cincinnati, Ohio, violated the law by the manner in which it distributed thalidomide in this country.

TEACHERS WIN BIG VICTORY IN CALIFORNIA

SANTA FE SPRINGS, Calif. (AP)—The California Teachers Association was victorious Tuesday night in a school board election of national importance.

Voters in the 12-school, 7,600-student Little Lake School District selected two new members.

The California Teachers Association—CTA—had applied "sanctions" to the district. The CTA wouldn't refer teachers there through its placement service. And it told teacher placement agencies throughout the country that the Little Lake district was a bad place to work.

The CTA parent group, the National Education Association, was watching the sanctions. It wanted to know if the device would be a good one to recommend to all its state chapters.

OPPOSED OFFICIAL

The CTA said the district superintendent, William G. Stanley, shuffled jobs of about 60 teachers at the beginning of the school year without consulting them, and threatened some teachers with big pay cuts if they wouldn't quit to smooth the way for his curriculum plans.

The two board members defeated were part of a three-man majority that backed Stanley.

The CTA local chapter went to work in the district to defeat incumbents George Freudenberg, an insurance salesman; and Robert Lopez, a movie-television scenic artist.

Parents in the district apparently took the teachers' side. They replaced Lopez and Freudenberg with Richard Luck, a sales engineer; and William Foley Jr., a moving company supervisor.

HARRISBURG (AP)—The General State Authority says it will accept rebidding on construction of two women's dormitories at West Chester State College because first bids exceeded the allocation of \$3,561,673.

The GSA awarded a \$49,850 contract Tuesday to Alex Colanero Sr. of Philadelphia for construction of a storm interceptor sewer system at the school. The sewer project is scheduled for completion July 3.

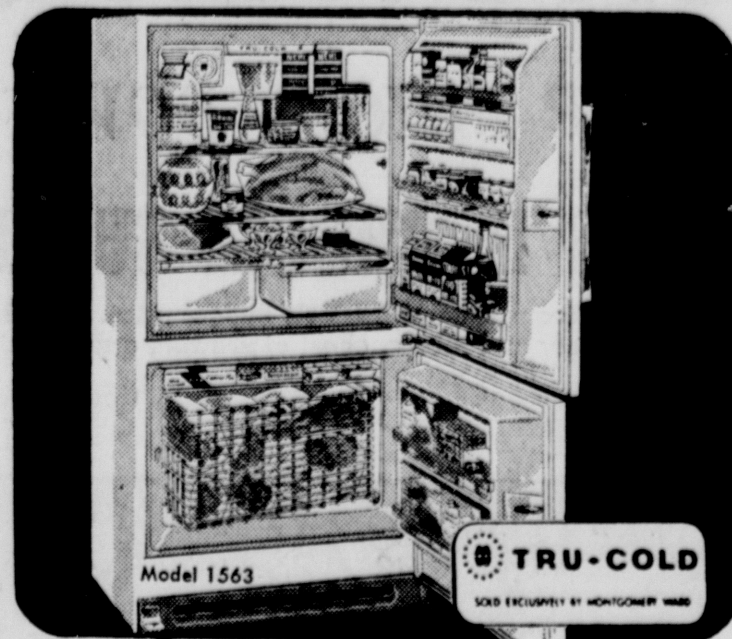

peace. But it said the machinery—based on investigation by the three-nation control commission—"is being prevented from acting." The pro-Communist Pathet Lao has blocked control commission investigations.

SINGER PAINTS AND WRITES IN RETIREMENT

By BOB THOMAS
AP Movie-Television Writer
SANTA BARBARA, Calif. (AP)—Her soaring soprano voice is stilled, but Lotte Lehmann at 75 is too busy to lament the loss of her great gift.

"I don't sing any more," she says smilingly. "During my lifetime I have never done anything halfway. When I lost my voice, I lost it entirely."

Similarly, she approached retirement wholeheartedly.

"When I retired, people asked me, 'But what will you do?' My answer was: 'What won't I do?'"

WRITES BOOK
At her wooded villa overlooking the Pacific she paints and makes mosaics. She has completed a book about her long association with Richard Strauss; she sang in the debuts of many of his works. She maintains a steady correspondence with opera singers who have studied with her here and are scattered now throughout the world.

Madame Lehmann conducted classes at the Music Academy of the West from 1951 to 1961, now does occasional coaching. Her sole student now is Niwa Katsumi, 24, a baritone from UCLA who, she said, shows vast promise.

PLANS TRIP
Madame Lehmann, still serenely handsome, makes an occasional trip—she is planning a return to her beloved Vienna next year—but she finds it hard to leave Santa Barbara. She has made her home here since 1941. "Every time I come back here, I wonder why I should ever leave," she sighed.

She left last fall for a return to the Metropolitan Opera House. She had been invited to help stage "Der Rosenkavalier," in which she had often sung Marshallin to great acclaim. The experience was not a success.

She admitted that she felt little sentiment for the Met, when she had her debut in 1934.

"Oh, it was nice to see the lady who had dressed me and the photographer who is still there," she said, "but the place seems terribly old-fashioned. I cannot join those who feel sorry that it will be torn down."

FOUR NATIONS FORM A UNITED ARAB REPUBLIC

By GEORGE McARTHUR
CAIRO (AP)—Egypt, Syria and Iraq have pledged to form a new United Arab Republic based economically on Arab socialism and politically on Western parliamentary institutions.

Announced aims are to wipe out feudalism, capitalism, reaction and imperialism, and to "liberate" Palestine, where the Jewish state is Israel has been established.

A communique signed early Wednesday by President Gamal Abdel Nasser and 30 others from the three countries indicated the new federal union of 38 million people will be at least two years taking shape.

TO HOLD PLEBISCITE
A plebiscite will be held by Sept. 17 to approve a still-unwritten constitution and elect a president, expected to be Nasser. Then a 20-month transitional period is planned during which the president will rule with the help of the three revolutionary councils now in power.

The communique, issued after 10 days of negotiations, said the union will have a two-house legislature. One will be chosen according to population. In the other each state will have equal representation.

The legislature will be chosen during the 20-month changeover period. Elections will be by secret ballot. Women will have the vote.

Political parties are to be welded into a single "political front," apparently similar to the one-party system Nasser has created in Egypt. But the communique said the unified state will "take into consideration regional circumstances."
